Well To-Day, Sick To-Morrow.

Such is the experience of thousands. Few enjoy continuous health. To what does the occasional invalid attribute his uncertain condition? Not to himself, of course. He lays the blame on the climate, perhaps. It is too hot, or too cold, too damp, or too dry, or too variable. But does he take the proper course to fortify his constitution and bodily organs against the extremes and changes of which he complains? No. He says, perhaps, that only an iron man could bear such great heat, or such violent cold or such sudden vicissitudes. Why then does he not resort to the great Tonic and Preventive, which, if it will not make him an iron man, will at least quadruple the capacity of his system to repel all external agencies that tend to produce disease. Hostetter's Celebrated Stomach Bitters, taken faithfully according to the directions, will so strengthen the stomach, brace the nerves, the liver, and regulate and invigorate the whole animal machinery, that the system, instead of being at the mercy of the weather, and liable to be prostrated by every change of temperature, will become case-hardened, as it were, and almost impervious to climatic influences. It is to this preventive principle that Hostetter's Bitters owe their great popularity in the West Indies, British America and Australia.

Hostetter's Bitters

Are sold wholesale and retail at very low rates at Fleming's Drug and Patent Medicine Depot, No. 64 Market street, corner of the Diamond, near Fourth street.

Put the Question

Generally to your friends, as to what preparations they use for their teeth, and the response, nine times out of ten, will be Sozodont. 'Tis no longer necessary to impress its merits upon the public mind, experience has taught the world that, as a means of beautifying and preserving the teeth, invigorating the gums, and giving a pleasant aroma to the breath, it has no rival in either hemisphere.

Carpenter Jobbing Shop.

A MR. HOUSTON, of Mercer county, Ohio, a member of the Mahoning congregation of the United Presbyterian Church, was lately cited to appear before the Presbytery to answer to the charge of having voted for Vallandigham as Governor of that State—"a man notorious for disloyalty, and under sentence of banishment by the Government." He was found guilty, and suspended from the privileges of the Church. From this decision he appealed to the Synod at its recent session which sustained the action of the Presbytery.

OIL INTELLIGENCE.

A dispatch to the Titusville Herald reports a new well struck on Ricketts' farm, near Plummer. Pumping twenty-five barrels heavy oil per day. Depth of well seven hundred and seventy feet.

Another strike has been made on Bennehoff Run, owned by Wm. Spence, J. O. R. Wilson, Wm. J. Runcie, and Ayers Coddington, Doing seventy-five barrels—will no doubt prove two hundred. Located on lease twenty-four.

The Clara well, No. 4 lease Copeland reserve, is producing 300 barrels. No. 2 well, on lease 5, is said to be producing 150 barrels.

The Homestead well has started again and is now flowing and pumping about 100 barrels per day. It is expected that she will soon regain her old figure.

A flowing well was struck on the William Williams farm, on a branch of Sugar creek, some eight miles from Franklin, which is flowing 100 barrels per day.

Well No. 2, on lease No. 2, Twin Wells, Thomas Holmden farm, commenced pumping at the rate of 100 barrels last Sunday, and is, like all the new wells in this section, still increasing.

Last week the drillers struck a crevice in well No. 187 on the Morey farm, within a few feet of the required depth. An hour or two later well No. 187 stopped flowing, and from yielding 125 barrels, she has been reduced to a yield of 40 barrels per day, by pumping.

From Tidioute we learn that the engine at Captain Goodrich's well, at Dennis' Run, blew up on the afternoon of the 23d, killing the engineer, Harry Blakesley, of Buffalo. Orrin Sweet, one of the workmen, was somewhat injured. He was standing in the engine house at the time. The engine was standing still and the men were at work in the forge. Blakesly is said to have left a wife and family.

No. 169, Sumner and Pratt tract, Rooker farm was struck on Thursday. It flows a steady stream, and upon the drawing of the lower valve, will probably reach 400 barrels.

No. 76, T. Holmden farm has re-commenced flowing at the rate of 100 barrels ber day.

"Island well," which ceased producing in November, is again flowing at the rate of 20 barrels daily.

The Titusville Herald, in noticing the dissolving of the injunction against the Bennehoff Run Petroleum Company, says:

"The effect of the injunction was of course damaging to the reputation of the company, and depreciated the stock, which immediately fell from $20 to $14, but with the removal of the injunction it as rapidly advanced to $21, or more than 100 per cent. The dividend previously declared was promptly paid upon the removal of the injunction.

"The Bennehoff Run Petroleum Company stands among the best in Venango county. It has now 17 producing wells and 14 more going down, the present daily production being between 700 and 800 barrels."

The *Herald* gives an account of "a voyage up the West Hickory region:

"At the mouth of the creek was found a thirty-five barrel well of lubricating oil.

"A mile and a half further up is the Manross farm, where over forty well are going down; and there are two producing wells—the one 60, and the other 25 barrels a day."

"A mile further up is the White farm, which has two producing wells, viz.: the Foster and the White wells—both, however, standing idle; though they had four hundred barrels of lubricating oil accumulated in the tanks. Over forty wells are going down on this farm.

"On the Fleming farm, adjoining, about fifteen wells are going down. One of these is in the second sand rock, and is regarded as promising.

"A mile further up is the Gorman Farm, where a well has been put down 311 feet into the third sand rock; and is pumping oil and water with much gas.

"The Miles Farm is a mile further up the valley. On this, the Miles Well pumps 15 barrels a day of heavy oil, gravity 40 degrees. The town of Gillespie is laid out on the thirty acre tract of this farm."

The well on Watson Flat, being sunk by Mr. Jonathan Watson, and previously mentioned on account of its great depth of 1,600 feet, has been unfortunate. The tools are fast, and have thus far resisted all attempts to bring them to the surface. It is stated that this well has already cost about $30,000.

The Central Oil Run Petroleum Company have two wells on these flats, numbered 25 and 49. No. 25 is producing about 50 barrels per day.

The Bothwell (C. W.,) Oil *Reporter* states that the Prince well was again tested on Thursday last by a Committee appointed for that purpose, and the report just given in states the yield to be 160 barrels per day.

Oil has been discovered near Boston station, Pendleton county, on the Lexington and Covington railroad, twenty-eight miles from Cincinnati. The discovery was made to-day, and the greatest excitement prevails in consequence.

Forty-one flowing oil well are now in operation in Barren county, Kentucky.

Execution of the Hefferman Murderers.

From a special dispatch to the Cincinnati *Commercial* we condense an account of the execution of James Knight, Thomas Perry, Geo. Crab and James Lysaaght, at Nashville, last Friday, for the murder of Mr. Hefferman, a prominent citizen of that place:

The condemned men all professed the Roman Catholic faith. Knight and Perry were baptised. The other two had been baptised in infancy. The prisoners had previously shown great hardihood, singing such pieces as "Bold Jack Dunaho" and "Bingen on the Rhine." The past two days had tamed them down, but they were still stolid, frivolous and careless, joking about their doom.

Perry's brother brought him clothing. The parting scene between them was heart-rending, Perry giving way to tears and sobs. Colonel Innis provided the others with clothing. Lysaught said, at first, that he didn't want any pants, as those he had on were good as gold to hang in. Crab was asked to tell who shot Hefferman. He replied, "That is not a fair question; I'll never tell that in this world."

Father Begrath came about ten o'clock to attend them in their last moments. Lysaught said he felt as gay as a lark. He was earnestly exhorted to repentance, but he remained almost stolid. Some one in the room having a looking-glass; he jumped up, exclaiming, "By golly, I must look at my face once more." Then turning to Crab, he remarked, "Look at yours—it is your last chance."

When the priest left them for a few moments they began to chat and joke about the ropes that would hang them, the feeling of contrition being evanescent.

An immense crowd, numbering fifteen thousand persons, were on the ground. At twenty minutes past eleven, the prisoners were brought to the gallows, which they mounted with a firm step, and stood gazing around for nineteen minutes, while the charges and specifications and sentence were read. Perry composedly leaned against one of the uprights and surveyed the crowd. Crab took hold of the noose before him, and viewed it with a comic look, testing its strength with his thumb, and rubbing his head against the rope.

At thirteen minutes after 12 o'clock the rope was cut, and the four bodies fell with a heavy thump. Lysaught's neck was broken. The knot slipped with Knight and Crab, who died with many struggles and convulsive writhings. Perry died by strangulation but did not move much.

A London letter to the *Commercial Advertiser* by the Asia says, while explaining the difficulties in the English money market, that

"An impression has gained ground that the shipments of manufactured goods to New York have lately been of a reckless description, *and that credits have been granted to many firms on your side who do not occupy a position to justify it.*"

Trial of General Baker.

WASHINGTON, Jan. 27.—The trial of Gen. Baker before the Criminal Court has developed some interesting facts in relation to the detective system and pardon brokerage.

It appears from the testimony of Lt. Hine that last Wednesday he was detailed by the Assistant Secretary of War and placed at the disposal of Gen. Baker, and directed to act under his orders. He was introduced to Mrs. Cobb, the plaintiff, as Captain Howell an ex-Confederate Captain, who was seeking for a pardon. She told him that she had great facilities for getting pardons, but would not inform him what influences she had. Captain Hine drew up a statement or petition signed as Clarence J. Howell, and affixed a spurious magistrates certificate, and presented this to Mrs. Cobb, who said anything could be done with money. A contract was entered into and the person was pardoned. The money was afterward found on her person and taken away from her. It was a part of the money used to entrap this pardon broker. The witness acknowledged he made a false statement to her.

During the proceedings Judge Hughes, as counsel for Mrs. Cobb, said it was a conspiracy, and in order to break up a legitimate business, these self-constituted guardians of the honor of the Government induced this lady to do the very thing they professed to be anxious to break up. Even a thief cannot be convicted if money is placed in his way by conspirators to entrap him, and the conspirators are justly execrated, and now Mr. Baker and his co-conspirators, and the man who drew up a false and fraudulent paper, and acknowleges that it was such, and who forged a magistrate's certificate, need not put on a look of dignity and talk to me. The days of bullying are past and the courts of justice are wide open, and oppressors and midnight robbers must come under the law, and their deeds must be known and spoken of. These remarks were followed by applause, which was suppressed by the Court, and the Marshal was directed to clear the room if it was repeated.

Proclamation of the Spanish Insurgent Gen. Prim.

NEW YORK, Jan. 28.—A Paris leter contains the following proclamation of General Prim, the Spanish Insurgent:

We have arrived at the terrible moment when revolution is the only resource of the nation, and the main duty of honorable men. I am the head of considerable military forces, and a great number of armed cavalrymen hasten, on all sides, to fight under my orders for the cause of freedom and their fatherland. My banner is the last manifesto of the Progressista Central Committee. With it in my hands I will fight with my wonted valor against a Government which dishonors us abroad and ruins us at home, to the point of making us a laughing stock among foreign nations and bringing us to the verge of shameful bankruptcy. Soldiers, who have already fought under my orders, you are aware I have never forsaken you, and that if you stand by me in this enterprise, I shall know how to lead you, first showing the path to victory, and next remunerating your endeavors. Fellow-citizens, and men of honor, aid me in bringing to a happy end, a political revolution which may do away with the necessity of that great revolution with which we are threatened. Spaniards, hurrah for Liberty, for the programme of the Central Progressista Committee, for the Constituent Cortez!

[Signed,] JUAN PRIM.

The disbursements and transfers of the Treasury Department last week amounted to $25,430,293.

CONSTITUTIONAL AMENDMENTS.

Views of President Johnson.

HE ADVOCATES SUFFRAE BASIS OF REPRESENTATION.

WASHINGTON, Jan. 28.—The following is the substance of a conversation which took place to-day between the President and a distinguished Senator:

The President stated that he doubted the propriety at this time of making any further amendment to the Constitution. One great amendment has already been made by which slavery had been forever abolished within the limits of the United States, and a National guarantee thus given that the institution should never again exist in the land.

Propositions to amend the constitution were becoming as numerous as preambles and resolutions at town meetings called to consider the most ordinary questions connected with the administration of local affairs. All this, in his opinion, had a tendency to diminish the dignity and prestige attached to the constitution of the country, and to lessen the respect and confidence of the people in their great charter of freedom.

If, however, amendments are to be made to the Constitution, changing the basis of representation and taxation, and he did not deem them at all necessary at the present time, he knew of none better than a simple proposition embraced in a few lines, making in each State the number of qualified voters the basis of representation, and the value of property the basis of direct taxation.

Such a proposition could be embraced in the following terms: Representatives shall be apportioned among the several States, which may be included within the Union, according to the number of qualified voters in each State Direct taxes shall be apportioned among the several States which may be included within the Union, according to the value of all taxable property in each State.

An amendment of this kind would, in his opinion, place the basis of representation and direct taxation upon correct principles. The qualified voters were, for the most part, men who were subject to draft, and enlisted when necessary to repel invasion, suppress rebellion, and quell domestic violence and insurrection. They risked their lives, shed their blood, and spent their all to uphold the government, and give protection, security and value to property. It seemed but just that property should compensate for the benefits thus conferred, by defraying the expenses incident to its protection and enjoyment.

Such an amendment, the President also suggests, would remove from Congress all issues in reference to the political equality of the races. It would leave the States to determine absolutely the qualifications of their own voters with regard to color, and thus the number of representatives to which they would be entitled in Congress would depend upon the number upon which they conferred the right of suffrage.

The President in this connection expressed the opinion, that the agitation of the negro franchise question in the District of Columbia at this time was the mere entering wedge to the agitation of the question throughout the States, and was ill timed and uncalled for, and calculated to do great harm. He believed it would engender enmity and strife between the two races and lead to a war between them, which would result in great injury to both, and the certain extermination of the negro population. Precedence, he thought, should be given to more important and urgent matters, legislation upon which was essential for the restoration of the Union, the peace of the country and the prosperity of the people.

FRENCH TROOPS AND MEXICO.

Gen. Sherman in the Senate Chamber.

ABANDONED AND CAPTURED COTTON.

Smuggling Operations Transferred.

OPPRESSIVE LEGISLATION AGAINST THE FREEDMEN.

NEW YORK, Jan. 27.—The *Tribune's* Washington special says Admiral Farragut has received a report from the Commander of the West India Squadron, stating that six large French transport vessels had put in at Havana on their way to Vera Cruz. The transports were empty, and it is believed that they were intended to carry back troops from Mexico to France.

The *Times'* Washington special says that Maj. Gen. Sherman entered the Senate Chamber in company with his brother, Senator Sherman, this evening, while the Senate was in session. Immediately a general buzz and hum of suppressed voices broke forth among the numerous auditors in the galleries, and there was a rush to get in favorable positions for a good view of the military hero. The Senators, one by one, approached the General, and warmly shook him by the hand. For a time he was surrounded by admiring friends, and the business of the Senate was almost suspended during his reception.

Gen. Sherman came here on official business, and it is said will remain for the coming week. Generals Sheridan, Meade and Thomas are all ordered here to form a military convention to regulate the affairs of their several departments.

The records of the Treasury Department show that from March, 1863, up to August, 1865, abandoned and captured cotton valued at $5,714,000 was seized by the government in the valley of the Mississippi. Of this amount $3,300,000 have been paid into the Department, the remainder having been transferred to the original owners of the cotton which to that amount had been improperly seized.

For the fiscal year ending June 30, 1865, the mint and branch mints of the United States coined $32,819,248.64 in gold, silver and copper.

The *Tribune's* special says: Intelligence has been received by the Commissioner of Customs of the transfer of a large share of the smuggling operations on the St. Lawrence to different points on the boundary line between the British Provinces and Dacotah. The Commissioner has taken the necessary precautions for the suppression of this illegal traffic in that direction.

The *Tribune's* Washington special says: A gentleman just arrived here from Charleston says, that in consequence of the cruel and oppressive legislation against the freedmen, enacted by the South Carolina Legislature, Gen. Sickles has been compelled to issue a very radical order annulling all such legislative enactments.

Steamer Burned—Several Lives Lost,

CAIRO, Jan. 28.—The steamer Ashur Ayers, with one thousand and twenty bales of cotton, was recently burned on Atlamaha river Ga. The boat was valued at $60,000; insured for $60,000. Most of the cotton was saved. Five or six negroes were lost.

HUDSON RIVER RAILROAD ACCIDENT.

Otero Murderess Sentenced.

RUMORED FENIAN PLOT.

French Ministry Favors Evacuating Mexico.

NEW YORK, Jan. 27.—Among the passenger injured by the rail road disaster near Sing Sing, this morning, are S. S. McGowan and his wife, and John Murphy. Mr. McGowan is a dry goods salesman in Utica. His leg is badly fractured. One of the cars next to the extreme rear, was thrown on its side and dragged a distance of nearly eighty rods, and on to one of the bridges in that vicinity. The timbers and debris of the bridge went crashing into the cars, injuring several of the passengers. One of them, Mr. Nichols, of this city, had both hands badly cut. A lady had two fingers cut off. A man' name not ascertained, had his legs broken, and others were severely injured, but no one was killed, as was first reported. The engineer of the train thinks the train which passed down in advance of him must have broken the rail. The hind cars of the train, which met with the accident, did not turn over, neither car was a sleeping car, nor were either of the cars thrown off the bridge into the road below, as reported,

Gonzales and Pellicier, the murderers of Otero, were to-day sentenced by Judge Gilbert to be hanged on the 9th day of next March. The prisoners received their sentence without any emotion.

One of the morning papers claims to have a dispatch from London by the latest steamer, which says there is a rumor in that city which says that the government has received information of a Fenian conspiracy to blow up the public buildings. It is asserted that the Custom House has been undermined and that the Home Secretary has informed the Chief of the London Fire Brigade to adopt precautionary measures. The Custom House, Somerset House and other public buildings are to be carefully guarded. From this continued panic two results will ensue: Ireland will be practically placed under martial law, and a definite demand will be made at Washington for the suppression of public Fenian demonstrations in the United States.

Letters from Brownsville give a detailed account of the capture of Bagdad. The capturing party was composed of a miscellaneous crowd of Mexicans, suttlers, clerks, adventurers and idlers, who appear to have engaged in the affair as a good piece of sport, and though it is believed there were among the captors some United States soldiers, every one of them was present on the other side of the river to answer to his name at roll-call on the next morning. According to these accounts the capture was planned and executed without the knowledge of either Gen. Ecobedo, Gen. Crawford, or any other chief of great renown.

Letters from the City of Mexico represent existing among the Imperialists in that capitol a profound anxiety on account of the embarrassed condition of the Imperial finances and the prospects of the Empire generally. The demands for money to carry on the government are great but the Treasury is empty, and there are no available sources from which to replenish it.

In the Superior Court to-day, arguments were made in the case of Mrs. Thorn against A. S. Mercer, emigration agent for Washington Territory. Lengthy arguments were made. The Judge took the papers and will make out a decision next week.

The Paris correspondence of the Independence *Belge* says it is known that the entire French Ministry are in favor of the evacuation of Mexico, and rumors run that in the last council they obtained a promise to send no new troops to Mexico. The assertion is also added that the speech from the throne will make mention of this projected evacuation.

Advices from Charleston say Gen. Sickles, commanding the Department of South Carolina, has prescribed regulations for the government of all concerned. He decides that all laws shall be applicable alike to all inhabitants; no person shall be held incompetent to sue, make complaint, or testify because of color or cast. He directs that no penalties or punishment different from those to which all white persons are amenable, shall be imposed on the freed people, and all crimes and offences prohibited under existing laws, shall be understood as prohibited in case of freedmen, and if committed by freedmen, shall, upon conviction, be punished in the same manner as if committed by white men.

The *Commercial's* Washington special says: The Reconstruction Committee had a meeting to-day, but will not take further action until the constitutional amendment, now before the House, has been disposed of.

The funeral of J. Boorman took place this afternoon.

No clue has yet been had to the identity of the bogus policeman, who so ingeniously robbed Mr. Thomas Quinn, the porter of the Greenwich Savings Bank in Carmine street. It is now stated that the cash box taken from Quinn contained $6,000 in bills and $4,000 in checks.

ADVICES FROM NEW ORLEANS.

Election for Mnnicipal Officers.

MATTERS ACROSS THE RIO GRANDE.

COAL MINES IN LOUISIANA.

Gross Cotton Transactions in Texas.

THE LABOR QUESTION IN THE SOUTH.

NEW ORLEANS, January 26.—The ship Uncle Joe has arrived from New York.

Cotton dull and lower; sales 1,250 bales of Middling at 47@48c. Sales for the week, 28,000 bales; receipts for the week, 2,400 bales; stock, 176,000 bales. New York checks ½c discount. Freights steady; Liverpool, ¾ penny; New York one cent. Gold 140.

In the Louisiana Legislature the Senate passed the House bill ordering an election for New Orleans municipal officers on the second Monday in March, and now awaits the Governor's signature. Should the Governor veto it, it will pass over a veto.

Private information received here from the City of Mexico, from a reliable source, is to the effect that the French troops will not be withdrawn until Maximilian will be free from American intervention. On the other hand Maximilian will certainly not give positions in the Mexican army to ex-Confederates.

The commander of the French fleet, off Bagdad, in the name of his Government, protested against the occupation of that place by United States troops, and those which had been sent over for the protection of the town and of American interests, were withdrawn. Many families living in Matamoras are fearful of further collisions.

Captain Weir, of the bark Mary Belle Roberts, of New York for Liverpool, died suddenly at Galveston on the 28d.

The steamer Alabama leaves to-morrow with two thousand five hundred bales of cotton, and a number of passengers on the 13th. Cotton is coming freely into Trenton on the Ouchita river, which was falling slowly.

The upper Ouchita Coal Mine Company, located in this city, are about to resume their operations, interrupted by the war. It owns twenty thousand acres of coal land on the Ouchita river. In Union county, lower part of Arkansas, coal was some years ago experimented with by a well-known chemist of New York, and a most satisfactory decision given.

The Galveston *News* urges the sending of special treasury detectives to Texas, to search out the alleged gross cotton transactions by the Government agents, in Jefferson, Marion county, Texas. That paper charges agents with downright, barefaced stealing, and oppression. There were over 100,000 bales of cotton at Houston on the 20th, and receipts falling off. Large holders of dry goods at Houston refuse to sacrifice their stock, as they expect larger prices.

The New Orleans *Price Current* reviews the reports from different Southern States on the labor question, and shows the urgent necessity for Freedmen Bureaus throughout the South, and taking energetic measures for the Freedmen to make and keep contracts for work, if it is desirable to even raise moderate crops of cotton.

The *Price Current* says the financial arrangements of the Government will be seriously affected should the crop be cut short by the failure of the Freedmen's Bureau to protect the great agricultural interests of the South this year through the proper inforcement of labor contracts. Should the cotton supply be small a material rise in the price will result, which will press severely on Northern manufacturing interests, and will leave so small a quantity of cotton for exportation as will diminish the supply of foreign exchange. Consequently the demand for gold will extinguish our foreign indebtedness, and materially obstruct the Federal treasury operations.

SERIOUS RAILROAD ACCIDENT.

Two Sleeping Cars Thrown Over a Bridge.

THREE PERSONS KILLED AND SEVERAL WOUNDED.

NEW YORK, Dec. 27.—A serious accident occurred early this morning on the Hudson River Railroad. The Cincinnati express train, due in this city about 7 o'clock, A. M., was partially thrown from the track. Two cars—said to be sleeping cars—were precipitated off the bridge into the road below. One was completely broken to pieces and the other nearly destroyed.

Three persons are reported killed and many seriously injured. The place where the accident occurred was a small bridge over a road leading to the brick kiln, near Croton.

New Overland Route.

DENVER CITY, COL., Jan. 27.—The Colorado Territorial Legislature has granted two liberal charters to Ben. Holliday, one for a road through Middle Park, shortening the distance to San Francisco 200 miles, and the other for the Hollaway Mail and Express Company.

RUMORED EUROPEAN ALLIANCE

Provisional Government for Virginia.

REWARDS FOR CAPTURE OF JEFF. DAVIS

NEW YORK, Jan. 28.—Letter from Berlin says: It is asserted that the Prussian Prime Minister is desirous of bringing about an alliance of Prussia, Russia and America; Prussia to operate against France on the Rhine, Russia to attack the Austrians in Hungary, and America, with her navy, to keep the fleets of France in check while her armies overrun Canada and Mexico.

The *Herald's* Richmond correspondent, says one of the Virginia delegation, now awaiting admission to Congress telegraphed to that city from Washington on last Wednesday, that it is the intention of President Johnson to supercede the present Virginia State government by a Provisional one. This has received credence in Richmond, and has therefore, of course, created much commotion and consternation in financial as well as political circles there.

A number of ladies held a meeting yesterday afternoon, in Brooklyn, and took preliminary steps to organize a Circle of Fenian Sisterhood. The members of the General Council, of O'Mahony Fenians, in Union Square, have concluded their labors, and adjourned. The O'Mahony bonds are being sent to different parts of the country.

Dispatches from Washington say that a member of Congress called at the War Department yesterday to enquire into the cause of the delay in announcing the names of the parties to whom the rewards for the capture of the conspirators are due. Secretary Stanton answered that Judge Advocate Holt had already prepared a list of the successful claimants, and the announcement would be made early next week. Mr. Stanton said that he had taken the trouble to go through the entire evidence, and that as it was very voluminous, delay had been unavoidable.

Representatives Hubbel, of Ohio, and Whaley, of West Virginia, in addition to John L. Thomas, of Maryland, have sought to have their names recorded against the District of Columbia suffrage bill, but the request has been denied, because of their absence from the House at the time the vote was taken on the passage of the bill.

The friends of Maj. Sweeney, the Fenian Secretary of War lately dismissed from the Regular Army of the U. S. for absence without leave, are making strenous efforts to have him re-instated, and are confident of success.

XXXIXth CONGRESS--FIRST SESSION.

WASHINGTON, January 27, 1866.

HOUSE.

The House went into Committee of the Whole on the State of the Union, Mr. Washburne, of Illinois, in the chair, and resumed the consideration of the President's annual message.

Mr. Smith, of Kentucky, concluded the remarks heretofore commenced, saying, among other things, that the doctrine which was initiated during the war, by the Union party, was, that secession is a heresy, and that it violated all principles of the Constitution and laws, on which our government was established. In maintaining this position he referred to the record of authority made by Congress, running through four years, and quoted from the remarks of distinguished gentlemen outside this House. We, he said, carried on war as a Union party, for the express purpose of keeping the eleven Southern States in the Union, where they were from the beginning, and are to-day.

In maintaining this position he did not intend to compromise any principle heretofore assumed by the great party of the Union. The Southern States, being in the Union, are entitled to representation, but he could not admit their members here unless they could stand up here and swear that they have never assisted in the attempt to overthrow the Government. If they could not do this, he would send them back to their constituents to try it over again, and if they should not then return to seats here, men who would take that oath, he would again send them back, until they should answer the requirement by sending hither Union men to legislate for the great American nation.

Mr. Baker, of Illinois, said that to his mind, two fundamental principles had been presented. One of them was firmly adhered to by the small democratic opposition in the House. It was also apparently favored by a few of the members of the overwhelming Union party. It was that in order to restore the lately rebellious States to their normal position, Congress had nothing to do but act under that clause of the Constitution which gives to each House the right to judge of the elections, qualifications and returns of its own members. The other fundamental idea was in keeping with the highest prerogative of Congress, and demanded by the people, viz: That we should go behind the mere surface of election qualifications, and returns of members. He held that it was the duty of Congress to fix up the House for future accommodation, and until that time the Southern States should take back seats.

Mr. Broomall, of Pennsylvania, said the great problem was what should be done with the people lately in rebellion, on the solution of which depended the continuance of the country for ages. There were, he considered, no rights of the vanquished to embarrass our action in reviving the old States or keeping the conquered country in a territorial condition, as either may best subserve the interests of the entire nation. A conquered people have no rights, civil or political. The victor may exact all the guarantees necessary to prevent the recurrence of hostilities, and the conqueror is the sole judge of the guaranties. In civil war the conquered can be treated as the conqueror pleases.

The House adjourned.

FENIAN MOVEMENTS IN LIVERPOOL.

Communication with America Active

Meagher Appointed Dictator.

NEW YORK, Jan. 27.—The Manchester *Guardian* of the 13th instant, says: Our Liverpool correspondent has received from some source information which he assures is strictly true, however absurd and improbable the facts may appear. The purport of the communication is that in Liverpool, which has always been one of the great centres of Fenianism, and where the chief members have had active means of communication with other towns in England, Ireland and Scotland, as well as with America, their movement is as vigorous as ever.

Of course the proceedings of the brotherhood are not conducted with much more caution than before the recent trials and arrests. Delegates' meetings are constantly held at Liverpool, and attended by persons from different parts of the United Kingdom and North America. But these meetings are never held twice in the same place, in order to baffle the police and to prevent the suspicion of outsiders, and to put the spies and informers who seem to be inseparable from an Irish conspiracy, on the wrong scent.

The communication with America is now more active than ever, but it is now carried on by writing.

The Fenian Embassadors now arrive at and leave Liverpool to and from American ports weekly, and as many of them are persons of good address, and even of education, and as they always travel first class, no suspicion whatever is excited, so far as our informant has been able to learn.

The latest move of the Fenian body is to appoint the notorious Meagher, as Dictator. Meagher, it will be remembered, was the leader of the Irish brigade in the recent American war. His plans are said to be to divide the Fenian army into two immense bodies, with one to invade Canada, and with the other to join the Emperor Napoleon in sustaining the throne of Maximilian in Mexico. By this stroke of policy it is stated that Meagher hopes to secure the eternal good will of the Emperor Napoleon, and to gain his support to the scheme of establishing the independence of Ireland.

Governor Cummings, of Colorado, on Colored Men's Rights.

NEW YORK, Jan. 26.—Gov. Cummings, of Colorado Territory, telegraphs to Senator Sumner about colored citizens calling his attention to the fact that the Legislature of Colorado, at its first session in 1861, passed a law establishing the qualification of voters, making no distinction on account of color or race, but the session of 1864 passed a law depriving negroes and mulattoes of the right.

Gov. Cummings says I invoke your earnest attention to the subject, and hope for the honor of the territory that you will promptly take action to erase this odious record from the statute book. I deem it proper to say also that the Legislative Assembly owes to the enlightened sentiment of their country, to take into consideration the condition of colored people with regard to the public schools. Under the law of 1861, offering them equal political privileges with others, they came here in considerable numbers and to an equal if not a greater extent than any other of the emigrants. The evidences of their industry, frugality and thrift are seen in the various parts of Denver, some of the finest property in the town belonging to them. They are subject to the tax laid for the support of the public schools, while they are not permitted to attend them.

In consequence of their seclusion from both public and private schools, some of these people have been compelled to send their children to the eastern States to be educated while paying taxes for education in this territory, but all are not able to incur this expense. As a necessary consequence many of their children must grow up in ignorance. I submit, without argument, the fact that the colored people in Denver and various parts of the Territory are taxed to pay for educating white children, while their own children are excluded from the public schools, and and your action will determine how long this humiliating spectacle shall be presented to the world. Justice to the living, and gratitude to those who died that the nation might live, forbid that the state of things against which these petitioners protest should longer prevail. I have only performed my duty in calling your attention to this subject. For the rest, the responsibility is with you.

Case of Mrs. Cobb.

NEW YORK, Jan. 27.—The case of Mrs. Cobb, pardon broker agent, and Detective Baker was continued to-day. There was a considerable argument as to admissability of testimony relative to the character of the plaintiff, but no evidence of interest or importance was elicited.

From New Orleans—Fatal Affray—Vessels Lost.

NEW ORLEANS, Jan. 28.—Cotton active; sales forty-one hundred bales. Sugar firm, at 12½c. New York checks ¼ discount. Freights unchanged. Gold 40.

A fatal affray occurred on Granier street yesterday, in which H. L. Newburg was killed, and Captain Oldham severely wounded. The young man who shot Newburg surrendered.

The schooner Nepture, hence for Rio, with forty-five passengers, was lost on the 10th off the Cuban Coast. The passengers and crew were saved, and arrived here by the Guiding Star. The vessel is a total loss.

The steamer Ama Perrett, bound to New Orleans, sunk in Red river on the Upper Falls. Her cargo was saved.

Better accounts are received from Eastern Texas about the freedmen making contracts.

Affairs in Australia—Defeat of Imperialists in Western Mexico.

SAN FRANCISCO, January 27.—Australia advices of November 11 state that public affairs still remained in a disturbed state. There had been an extensive strike by the workmen on the Western Railroad, but it was quieted down and they resumed work.

Rain had finally commenced to fall doing great benefit to the country.

Advices from Guaymas to the 16th inst. state that the Imperialists were defeated by Morales at Matarpha. Morales was subsequently defeated, losing one hundred and twenty-nine killed. The Liberal Gen. Martinez had captured the city of Alamos.

The roads are very insecure, and commerce is reduced to almost nothing.

Diamond, Gold and Silver Discoveries in Idaho—Flood at Sacramento.

SAN FRANCISCO, Jan. 27.—Humboldt papers give a glowing account of the discovery of diamonds, gold and silver in Idaho.

Amos Phinney and company, extensive lumber dealers in this city, have failed; liabilities reported at $400,000.

Notwithstanding the water in the river at Sacramento is nearly twenty-three feet above the low water mark, the levee still held back the flood. The low lands of the surrounding country are flooded, and families are driven from their homes. A change of weather indicates relief from greater damage, and the escape of Sacramento.

Official News From Mexico—Expedition Sent Against Juarez.

WASHINGTON, Jan. 28.—Official news up to the 29th of December, has been received from El Paso, the present seat of the Mexican Government, that after the occupation of Chihuahua by the French, they sent an expedition to El Paso against President Juarez, who collected at that place Gen. Perrago's Division, and made other preparations to resist the invaders with every chance of success. When the French heard of this, they marched back to Chihuahua, thus abandoning the idea of attacking El Paso. News from the interior is represented as being quite encouraging; the impression prevailed in the whole country that the French would soon abandon Mexico.

Heavy Robbery—New Practice.

NEW YORK, Jan. 27.—Police officer Shellges, of the 25th precinct, was on duty in Carmine street yesterday morning, when a man dressed in police uniform came to him and told him that he had been detailed to arrest a counterfeiter, and that the assistance of the patrolmen would be required. Shortly after, the porter of the Greenwich Savings Bank, named Thomas Quinn, came by with a tin box containing $30,000 in money, and he was arrested, after making a slight resistance. The bogus officer snapped a pair of handcuffs on Quinn's wrists, and bade the regular patrolman to take him to the station house, while he proceeded to headquarters to report the arrest. This was done, the strange man making his escape with the box and contents.

DIED.

MCGREW—At the residence of his father, on Observatory Hill, Lord's Day morning, at 3½ o'clock, ROBERT L. MCGREW, aged 55 years and 6 months.

Funeral will take place at 2 o'clock THIS (Monday) AFTERNOON. Carriages will leave the Diamond, Allegheny, at 1 o'clock.

BAYARD—January 27th, FANNIE, daughter of Stephen and Lucy Bayard, aged 3 years, 6 months and 25 days.

Friends of the family are respectfully invited to attended the funeral from the residence of J. P. Goff, East Birmingham, THIS (Monday) AFTERNOON, at 2 o'clock.

PROPOSALS.

TREASURY DEPARTMENT,
OFFICE LIGHT-HOUSE BOARD,
WASHINGTON CITY, January 6, 1866.

SEALED PROPOSALS will be received at this office until 1 o'clock P. M., on FRIDAY, the 9th day of February, 1866, for supplying the Light-House Establishment with sixty thousand gallons of the best quality pure winter-strained Oil, either Lard or Sperm, to be divided into four lots, and to be delivered at the times undermentioned, alongside of the Government supply-vessels, or at the warehouse or other place of deposit, to be designated by the Inspecting Officer or other authorized agent of the Light-house Board, in strong, tight, iron-bound, well-made casks, suitable for shipping, in good order, of a capacity, each, of from fifty to eighty gallons—not to exceed the latter. The oil may be delivered at Boston or New York, at the option of the bidders.

The place of delivery in each case must be distinctly stated in the bids, and will be embraced in the contracts.

The four lots will be delivered as follows, viz:

Lot No. 1. Fifteen thousand (15,000) gallons oil on the 2d day of April, 1866, or as soon thereafter as the proper tests and gauging can be completed.

Lot No. 2. Fifteen thousand (15,000) gallons oil on the 16th day of April, 1866, or as soon thereafter as the proper tests and gauging can be completed.

Lot No. 3. Fifteen thousand (15,000) gallons oil on the 1st day of June, 1866, or as soon thereafter as the proper tests and gauging can be completed.

Lot No. 4. Fifteen thousand (15,000) gallons oil on the 1st day of August, 1866, or as soon thereafter as the proper tests and gauging can be completed.

Separate proposals will be received at the same time for 5,000 gallons of Colza or Lard Oil, to be delivered as above stipulated, at Detroit, Mich., on the 1st day of May, 1866.

No bid will be considered unless from a manufacturer of the article.

No part of the oil proposed for and to be embraced in the contracts under this advertisement will be accepted, received, or paid for, until it shall have been proved, to the entire satisfaction of the person or persons charged with its examination, test, and inspection, to be of the best quality pure winter-strained oil, and free from mixture with other or inferior oils and adulterations.

The usual means for determining the character any quality of the sperm oil will be employed, viz: specific gravity, burning, the amount of residuum, and and other proper tests to arrive at correct conclusions that may be deemed necessary.

The lard oil will be subjected to special tests, and will be rejected unless found to be, in regard to burning and fluidity under reduction of temperature, and in every other respect, equal to that of the standard adopted by the Board, of which a sample will be furnished on application to the Light-house Engineer at Boston, Mass.

The casks must be gauged under the direction and personal supervision of the inspecting officer, by a custom-house or other legally authorized and sworn gauger, according to the United States standard, and must be marked and accepted before they are removed from the cellar or warehouse of the contractor. The temperature of the oil will be accurately noted, and the measurements reduced to the standard temperature of 60 deg. Fahrenheit, by tables prepared for the purpose.

Proposals will be received and considered for each lot separately, or for all of the lots, at the option of the bidder; but no bid will be considered for a less quantity than that specified as one lot, to be delivered at one time and place. Each bid must state explicitly, written out in full, the kind of oil offered, (whether sperm, lard or colza;) the rate per gallon, the number of the lot or lots bid for, and the place of delivery, conforming to this advertisement.

Bids submitted by different members of the same firm or copartnership will not be considered.

The Light-house Board, under the authority of the Department, reserves the right to reject any bid, although it may be the lowest, for other considerations than the price.

No bid will be considered for any other kind or description of oil than those specially called for in this advertisement.

A bond, with security to the satisfaction of the Department, in a penalty equal to one-fourth of the amount of each contract made under these proposals, will be required of each contractor, conditioned for the faithful performance of the contract, to be executed within ten days after the acceptance of the bid.

Each offer must be accompanied by a written guarantee, signed by one or more responsible persons, and known to the department as such, or certified by a United States district judge, attorney, navy agent, or collector of the customs, to the effect that, if the bid be accepted, the bidder will duly execute a contract in good faith, according to the provisions and terms of this advertisement, within ten days after acceptance; and that in case the said party offering shall fail to enter into the contract as aforesaid, he or they guarantee to make good the difference between the offer of the said party and the next lowest bidder. All bids must be sealed and endorsed "Proposals for Oil for Light-houses," and then placed in another envelope, and directed, prepaid, to the Secretary of the Light-house Board, Washington City.

All bids will be opened publicly, at the hour and on the day specified.

Payments will be made for the several lots of oil within thirty days after they shall have been received by the United States.

By order of the Light-house Board.

ANDREW A. HARWOOD,
ja12:2awd2wm Secretary.

THE ANTHRACITE COAL TRADE.

Mr. S. H. SWEET late Deputy Engineer and Surveyor of New York, has made a Report on Coal, which was transmitted to the Legislature, and by that body ordered to be printed. In this document he condemns the policy of Pennsylvania in selling her canals, and alleges that she thus not only placed herself at the mercy of private corporations, but imposed heavy burdens upon the coal consumers of this and adjoining States—they being compelled to submit to the combinations of companies who connect the cheap with expensive rates of transportation. By this method he believes that the coal consumers are deprived of the direct benefits of canal transportation. The average cost of labor and materials for mining have not increased since 1861 more than one hundred per cent.

Mr. SWEET may be an accomplished engineer, but he is totally ignorant of the most notorious facts relative to Pennsylvania and her coal trade. How she has placed "herself at the mercy of private corporations" by selling her canals, is more than he can tell if he seriously undertakes the task.

In attributing the high rates for coal that have ruled for three years past to "combinations of companies," he demonstrates that he does not know what he is talking about. Several of the most powerful of the Companies, regularly every fortnight, put up each fifty thousand tons of coal at public auction in the Merchant's Exchange, in New York, and the lots have been so fairly knocked down to the highest bidder, that no complaint of collusion has ever been made, or a suspicion of its existence entertained. Every business man understands that a combination on the part of the same companies, to keep up prices, under such a system of sale as this, could not be maintained if it should be attempted.

But this is not the whole of the case. The greater number of the Companies engaged in transporting coal are simply common carriers. They own not a ton of the coal they take to market. There are other Companies that mine coal and trade therein. Some of these transport no coal but such as belongs to them. They work their own mines, and buy from private operators, conditioned for delivery on the main track of railroad. These latter Companies could, indeed, enter into combination with one another, but it so happens that they are the very ones which make the great auction sales. If these Companies should endeavor to combine with the former class of Companies, such an arrangement would fail, because that former class could not stipulate for the sale of masses of coal of which they were neither owners nor agents, but simply transporters at a specific rate per ton.

If Companies owning the coal they carry should undertake to negotiate an agreement with the individual operators who send the product of their mines to market over the roads of companies that are only common carriers, the number of these operators would be found a formidable obstacle to concert of action. But if an agreement should actually be compassed, it would surely be broken; an individual operator, pressed for money, would be certain to abate the price of his coal rather than sacrifice his credit. This has proved the rock on which all efforts to maintain combinations have split in years past.

In 1863 and '64 the price of coal advanced beyond all precedent. One reason was the inflation of currency, and the imposition of direct taxes. The other was a suddenly increased demand beyond the means of supply. In consequence the price of mining went up much beyond what Mr. SWEET estimates.

The only remedy that seems to be practicable, is for capitalists who think the profits of mining and transporting coal beyond the average of other pursuits, to go into the business. That is being done to a large extent. There is no other way of running [illegible] down.

THE MANUFACTURES OF PITTSBURGH.

In common with the merchants and manufacturers of this city we were astonished to find the city of Pittsburgh set down, in the report of the Secretary of the Interior to Congress, published on Friday in our telegraphic reports, as producing only $11,000,000 of manufactures yearly.

Now, as this Congressional district paid over three millions of taxes on manufactures, last year, this is manifestly an egregious error; but it is easily accounted for.

The Secretary of the Interior has made up his report from the returns of the census of 1860; and has given the produce of manufactures, as returned by the census-takers, *within the limits of the city proper only*; and not knowing that but a small portion of our factories are within the city limits, his report does us, (unintentionally) the grossest injustice.

The largest portion of our manufactories are located in West Pittsburgh, Monongahela Borough, South Pittsburgh, the two Birminghams, Pitt township, Allegheny, Manchester, Sharpsburg, &c., and the returns from these points are therefore scattered in the census report, and the Secretary of the Interior cannot be expected to know which of them, or how many of them, belong to what is known in general parlance as Pittsburgh, although not included within its corporate limits.

We see, in this, one of the disadvantages under which we labor in our present disjointed municipal condition. "Pittsburgh," in ordinary conversation and writing, embraces all the corporations adjoining the city proper; but "Pittsburgh," in all official reports, embraces only the old city, and all the published statistics, therefore, belittle us so terribly that people abroad rather rejoice in parading them, as proving that the city is not entitled to a tithe of the importance claimed for her. And it must be so, until we have been consolidated into one city.

The volume of the census on "Manufactures," has not yet been issued. When it is, we shall compile the statistics necessary to show the *real* condition of the manufacturing interest, as it was in 1860, merely premising that since then our manufactures have nearly doubled, and are constantly increasing.

NORTHERN MEN who have gone South to reside since the closing out of the rebellion, are finding it both unsafe and unprofitable to receive through the mails, from their old homes, newspapers of anti-slavery proclivities. As one has recently expressed the fact, "the only way that a Northern man can live there in safety, outside of a military post, is to profess to be a Democrat with Southern proclivities."

THE *Commercial* is altogether mistaken in attributing our position on the Suffrage Question in Pennsylvania to a recent "visitation of prudence and wisdom." That same view, fortified by fullness of data, was taken by the writer hereof, and produced in full in these columns, many weeks ago. We have taken no other position now.

TRIAL OF THE REBEL LEADERS.

On Monday last Mr. THOMAS WILLIAMS offered in the House of Representatives a resolution touching the disposition to be made of Mr. JEFFERSON DAVIS and his associate leaders in the rebellion. Of this resolution the text furnished by telegraph was so marred and mutilated, that we are induced now to give a true copy of the original. It is as follows:

Resolved, That upon the evidence before this nation of the starvation and butchery of its soldiers as prisoners of war in the hands of the late so-called Confederate Government, and of other violations of the humane usages of nations in that behalf, with the presumed connivance of the executive head of that government and the commander-in-chief of its armies in the field, it has become the duty of the President of the United States to order the trial of those pretended functionaries, and all other officers of that government, civil or military, who are believed to have either authorized or been consenting thereto, before a military commission for a violation of the laws of war, and in case of the conviction of any of them, to execute the sentence of such tribunals by inflicting such punishment as may be adjudged by them appropriate to the offense.

That under the special circumstances of the case, the arraignment of any of the leaders of the rebellion for the crime of treason before any of the judicial tribunals of the country, besides being of questionable propriety in itself after so long a maintenance of the belligerent relation, would be attended with no valuable practical results, from the constitutional necessity of a trial within the rebellious districts, where the peers of the delinquent will be none other than the partners of his guilt.

Mr. Farnsworth moved to insert the words "court-martial or" before the words "military commission;" Mr. Williams accepted this amendment, and moved the reference of the resolution to the Committee on the Judiciary, which was carried.

No well-informed man believes the idea is any longer entertained by the administration of putting Mr. Davis or any other of the rebel leaders on trial for treason. There was a significance both in the words and manner of the President, a few days ago, when the remonstrance of Gov. Baker, the State officers and ten thousand citizens of Indiana, against the pardon of Mr. Davis, was presented to him. He took it, smiled a peculiar smile, and said, "I'll lay it beside this bundle," pointing to an immense pile of manuscript, "which is just as large a petition for his pardon." It doubtless remains true that "treason is the greatest of crimes;" but either a purpose that it shall not "be punished as such" has been formed, or reasons discovered for concluding that a trial would not result in a conviction.

It will be seen that Mr. WILLIAMS's resolution does not contemplate the trial of Mr. DAVIS and his associates for treason, and that a reason is embodied in it for supposing that their trial for that offence would not result in conviction.

It is understood that evidence exists in the War Office abundantly sufficient to convict DAVIS and others of complicity in the assassination of President LINCOLN. A deep suspicion exists, both in Congress and out, that a determination has been matured that no trial of these offenders shall be ordered which will be likely to bring them to justice.

If this is the fact, we do not see what end is to be gained by pressing and passing Mr. Williams' resolution, beyond demonstrating to the apprehension of the public the existence of such a determination, and we can see several ways in which even that end might be altogether frustrated. The administration would have the appointment of the members of the Commissions, the designation of the Judge Advocate, the production or suppression of testimony, and the approval or disapproval of the finding.

DUTY OF TESTIFYING.

MR. OSTERHOUT, of Wyoming County, has brought forward a bill in the House at Harrisburg to enable parties to civil suits to testify as witnesses in their own cases. The principle is correct; but we should be glad to have a clause inserted giving one party to a suit the right to use the other party as a witness. Plaintiffs and defendants, it is fair to presume, know more of the matter at issue than any other persons. It is just to make them tell what they know. Of course their testimony would be received by judges and juries as interested.

It not unfrequently happens that a plaintiff or defendant can prove, by using as witnesses individuals who understand only disjointed parts of the case, what he himself knows to be absolutely false. Such is human nature that many a man does not hesitate to avail himself of this sort of testimony who would shrink back aghast at the bare thought of stepping upon the witness stand and giving, with his own lips, the identical version of his case, that he would, without a blush, seek to obtain through the testimony of third persons.

Several of the States have gone farther in the same direction Mr. OSTERHOUT now proposes to have traveled, and the apprehensions out of which grew the old rule of excluding the testimony of parties themselves have not been realized.

ANTHRACITE COAL TRADE.—The Pottsville *Miner's Journal* gives the details of the Anthracite Coal Trade of Pennsylvania, for 1865. The aggregate amount sent to market was 9,488,396 tons, which at the average price of $8,00 per ton, gives the sum of $75,907,168 as the total value realized.

THE Mercer *Dispatch* contains a communication advocating the nomination of Gen. MOORHEAD as the Union candidate for Governor.

The Voice of the Soldiers.

At the National Convention of soldiers recently held in Washington City, the following resolutions were adopted:

Resolved, That we earnestly protest against the admission to a seat in Congress of any Representative or Senator from States lately in rebellion who is unable to take what is known as the "test oath," as it would be an insult to every Union soldier in the Republic to allow men whose hands are yet red with the blood of their comrades to legislate for them, and for the wives and children of the gallant dead who fell on the battle field or were atrociously starved in Southern prisons.

Resolved, That in the opinion of this convention no State lately in rebellion should be allowed to come back into practical working relations with loyal States until they have given unmistakeable evidence of a desire to cherish the Union and protect the great principles of civil liberty they so lately attempted to destroy.

Resolved, That we fully concur in the often repeated declaration of the President of the United States that "treason is a crime and should be punished," and we have been waiting most impatiently for a practical application of the principle to the leaders of the late rebellion.

Resolved, That this convention, composed as it is of soldiers and sailors, representing many of the loyal States of this Union, desires to unite in bearing its testimony against the horrid atrocities of the leaders of the late so-called Confederate States and army; that its head and front, Jefferson Davis, should be held up to the execration of all persons of all nations who are imbued with the principles of Christianity, or of common humanity; and we here declare it as our settled conviction that he should be tried by a military commission for atrocious acts committed in violation of all the principles of civilized warfare; and we hereby request our Senators and Representatives in Congress to pass a resolution calling upon the President to speedily convene a military commission, composed of our ablest general officers, for that purpose.

THAT the majority of the present Legislature of Kentucky is as disloyal in spirit as any that ever met at Richmond or in South Carolina, is not to be doubted; that it is their desire to persecute, drive out or crush Union men, they have made clearly apparent; and that it is their wish and their intention, if possible, to re-enslave the freedmen, they do not pretend to deny. The most popular men with the majority of the Legislature to-day, are returned rebel soldiers, who fought through the war to destroy the Government, and the most unpopular are returned Union soldiers and Union men who sustained the Government through the bloody struggle for its life.—*Cin. Gazette.*

THE SCHUYLER FRAUDS.—The New Haven (Conn.) *Journal*, has the following important statement: "The case of Robert Schuyler and others, against the New Haven Railroad, otherwise known in the New York Courts as the omnibus suit, was decided in December by the Court of Errors, of New York (the court of last resort in that State) in favor of the plaintiffs. The judge awarded to the plaintiffs judgment and costs to the amount of $900,000. The case can go no further, and the company have now made arrangements to pay the judgment and costs. On Monday the Directors met and voted to increase the capital stock of the road to $5,000,000, which will realize enough funds to meet the amount required."

PEORIA, Quincy, and other towns in Illinois, have taken steps to start cotton factories.

Ex-Governor Tod's Project.

The facile gentlemen who have lent their names and influence to the project of Governor Tod, by his proposition to bring his road to the mouth of Pine Creek, and there connect with the Allegheny Valley to Pittsburgh, seems to have utterly blinded their eyes to the ulterior and real object of the Governor, on the one hand, to reach Blairsville by the North Western, now nearly completed, and on the other, to cross the Allegheny, and thence by Negley's Run to cut Pittsburgh off from the Baltimore and Ohio when completed. His idea of aiding our facilities for trade with the Lakes by carrying his road through the northern border of Allegheny county to Pine Creek, and thence six miles down and six up to that point, seems too absurd in theory not to have awakened our citizens from the somnolency and stolidity which so obscured their vision as not to see that the Governor had any other scheme in renewing his efforts to accomplish his former views, happily defeated at the time of his first essay to shut Pittsburghers out from their position on the line of trade and travel to and from the East and West. Trusting now that our Senators and Representatives will carefully ponder and scrutinize the consequences of permitting the Cleveland and Mahoning R. R. to invade the territory of Allegheny county to promote the completion of a Railroad which cannot fail to prove eminently disastrous to our future welfare, we are in favor of opening every avenue to the Lake and West which will not combine facilities that may exclude Pittsburgh or abstract from such as we now enjoy. For what object then does Gov. Tod prosecute a line of road in preference to the Valley of the Beaver and Ohio to Pittsburgh much shorter than via. Pine Creek? But one rational conclusion is left, that is to seize the advantage which legislation may give him to reach Blairsville or intercept the Baltimore and Ohio before it gets to this city, and establish through lines of freight and travel both to Philadelphia and Baltimore for the benefit of Cleveland and to the utter exclusion of Pittsburgh. To those who are acquainted with Gov. Tod, he is well known as a gentleman of imposing address, winning manners and as fertile in expedients for the security of any object he has at heart, as he is accomplished in the former. Trusting these crude and undigested hints from a very humble correspondent may at least tend to further inquiry and awaken us to the peril of such an overture as this of the Governor, to the best interests of our city, though we are not without the hope he may also arouse our friends in Beaver county to a proper exertion to avert from them a disaster to which we are alike exposed in the premises. The Governor in his speech to the iron masters, says he don't want our money to aid in his project, no indeed, he has not the hardihood of conscience to ask our money, as he well knows that would be obtaining money under false pretenses, as the completion of his great scheme by intercepting trade at Blairsville or on the Baltimore and Ohio is sure to verify in the end.

"Times change and we change with them," an aphorism descending to us from the days of ancient Rome, more tersely and beautifully expressed in the classic language of that world-renowned city, "*Tempora mutantur et nos mutamur in illis*," has achieved another illustration of its philosophical truthfulness here in our midst, at the head of the Ohio.

Ex-Governor Tod has at length found willing ears to a long cherished object fraught with incalculable evil to the prosperity, growth and population of this city. It surely cannot be altogether forgotten that this adroit and influential gentleman some few years ago in the inception and progress of the Cleveland and Mahoning Road had matured and well-nigh accomplished the great project he had on hand to connect Cleveland with Philadelphia by the Northwestern Railroad, thus greatly shortening the distance from the latter to Cleveland, leaving Pittsburgh "out in the cold," boasting that they would have a through line between these cities, as the Pennsylvania Railroad had made a large investment in the Cleveland and Mahoning, and when reaching Blairsville their brakesmen would call out that passengers for Pittsburgh would change cars, whilst the through to Cleveland and the North-west would keep their seats, thus making Pittsburgh a mere way station for Western trade and travel, or, as the fact would prove, giving us the go-by altogether.

The Governor, in his speech to the iron masters, says he don't want our money. No, verily! The great object he cherishes, is to seize a connection with the Pennsylvania Railroad at Blairsville, by using the Allegheny Valley as a blind to conceal from us that which would have betrayed his design, and keeping out of view the Northwestern, to that point nearly completed, with which his road must connect at Pine creek before he crosses over the Allegheny river, which he never will; and should he cross, he can intercept the approach to this city, and thus abstract the trade and travel both, from Philadelphia and Baltimore, by prosecuting his work to the Monongahela above Pittsburgh. No, no; he don't want our money. Legislation is what he desires; and of more countless value is it to his project than any contribution we would be likely to make to a measure suicidal of our best interest. But the Governor persuades those willing adherents to his plan, that it is opening *another* avenue for the transportation of ore from Canada, east of Toronto, to our smelters here. Can it be that their somnolency or stolidity is thus so surely counted on, as not to see that material from so remote a point to this city must pass by the harbor of Erie and the Pittsburgh and Erie road, which would afford to our iron men a route to this city one hundred and fifty miles shorter than to land their ore at Cleveland? Bosh! Are we so stupid as to be caught with such bate as the Governor would have us swallow? And what a compliment is it to the intelligence of the community!

SEWICKLEY.

GENERAL NEWS.

A SHOCKING tragedy took place near Belle Plain, Minnesota, a few days ago. Mr. Shilock, wife and five children were in bed, when Mrs. Shilock awoke and found the house in flames. She rushed to the rescue of four children who were in an adjoining room. Mr. Shilock followed an instant later, but in his passage broke through the burning floor and fell into the cellar. By a desperate effort, and almost suffocated by heat and smoke, he again reached the bed which he had left, and grasping the sleeping babe, threw it through a window which he had broke out; but, upon turning to see what had become of his wife, he was met by the flames, and but barely escaped by the window through which he had thrown his child. Upon reaching the outside, he heard the cries of his wife from the entry-way, or narrow hall, who had been frantically endeavoring to gain the room occupied by her children, until she herself had become surrounded by fire. Through almost superhuman exertion he succeeded in bursting in the door, and rescuing her, although both were terribly burned. They now used every exertion to save the children, but all to no purpose, and soon they were enabled to see the four standing together in the middle of the room, clinging to each other, with their eyes raised toward heaven, in which position they were consumed by the flames, in full sight of their agonized parents, who could lend them no aid.

FEW people who had just emerged from such a contest as we have recently terminated, would be willing to admit a defeated faction, occupying the position of the rebellious States, to a free share in the common Government upon any terms, until long years of peace had permitted the ebullition of inflamed passions to subside. But no nation would dream for a moment of giving a section thus vanquished what would be tantamount to a double share, man for man, of political power. Yet this is what we will virtually do, if we perfect reconstruction, without first securing some such change in the basis of representation as is proposed in the constitutional amendment that is now being debated in Congress. The apportionment of electors and representatives being based on population, three or four millions of freedmen, although deprived of all political rights, will increase the influence of the seceding States in the national councils, and in Presidential elections, as much as an equal number of white citizens will add to the political power of the north.—*Philadelphia Press.*

THE San Francisco directory, published on the first of January, contains nearly 45,000 names, by which the population is estimated at 120,000. The number of buildings in the city and county is 15,518, viz: of wood, 12,268; of brick, 3,250. Many of the buildings erected during the last year were very costly, and of great architectural beauty. There are 1,729 liquor saloons, 376 attorneys, 248 physicians, 56 drug stores and 534 hotels and boarding houses.

AT the Dead Letter office in Washington, a letter was recently received, containing a check for $8,000 in coin, directed to a lady in New York, requesting her "to accept the inclosed as a return for the kindness shown my father and mother," and dated at the Astor House, and signed "John," who was to start immediately for Europe. The Postmaster General directed a thorough search for the lady, and at last found her.

COTTON CROP OF 1866.—Messrs. Neil Brothers, of New Orleans, who have the best facilities for judging, estimate the cotton crop of 1866 at 2,500,000 bales. They think extraordinary efforts will be put forth by all classes—black, white, Southerners and Yankees—to produce as large a crop as possible. It is not considered safe for merchants to operate in this staple with a view to higher prices, and accordingly there is no speculative spirit in cotton.

THE Fifth-avenue Hotel, New York, pays $80,000 rent; the St. Nicholas and Metropolitan $70,000 each; the Astor and New York $60,000 each, and the Everett $40,000. A. T. Stewart owns the Metropolitan and the St. Nicholas, and William B. Astor owns the Astor House.

GENERAL NERVINE

THE SYLVAN ORIENT COMPANY, of Bosto the only importers of the genuine Hasheesh Cand now introduce to the citizens of Pittsburgh and city, a remedy which for ages has been known eastern countries as the most potent for the cure a multitude of diseases, and in the language of celebrated Professor in the Calcutta Medical C lege, has for ages constituted the principal eleme in all the popular medicines among the Orients.

The article now offered to the American public the genuine Hasheesh Candy, so vividly describ by Bayard Taylor, and which for centuries h been the theme of poets and philosophers, but o ing to its remarkable and uncertain influence the mind when taken in its crude state, and the e aggerated accounts given of it by enthusias tourists, a degree of distrust has heretofore exist on the part of the people of this country, as to practical benefit as a popular medicine—and p haps nothing has had a greater tendency to increa this distrust on the part of the most intelligent our people than the course recently pursued by certain New York concern, by offering to the pu lic an utterly worthless preparation, under the d ceptive name of Hasheesh Candy, and at the sa time catering to the morbid curiosity on the part thousands to witness its effects as described in t Count of Monte Cristo, and other similar autho ties.

In preparing the genuine Hasheesh Candy, t exhilerating properties of the crude Hasheesh modified by chemical combinations, thus renderi it a safe, pleasant and certain cure for

OUR HARRISBURG LETTER.

Special Correspondence of Pittsburgh Gazette.

HARRISBURG, January 26, 1866.

The annual report of the managers of the Institution of the Blind has been submitted to the Legislature. The progress of this great charitable institution has been unceasingly onward, an encouraging condition owing, in a great measure, to the liberality of the Legislature, which has not failed to respond to its call for succor. A few weeks since a benevolent person named Thomas Trower, residing in Bucks county, died, and left to the Asylum an estate valued at $28,403 88, principally invested in United States and State bonds, and which is to be handed over after the decease of his widow. There are 186 blind persons in the institution, of whom 156 are from Pennsylvania, 20 from New Jersey, 4 from Delaware, and 6 from other States. The whole number of white persons deprived of sight in the United States in 1860 was 10,729, and it is estimated that there are in Pennsylvania at this time 1,333. Of the pupils three are from Allegheny, one from Beaver, two from Mercer, and one from Armstrong; and of the adults in the Work Department there are seven from our county.]

Mr. McConaughy, the new Senator from Adams and Franklin, gave a supper on Tuesday evening to his Republican colleagues. The entertainment was gotten up in most excellent style and among the guests were your two Senators, both of whom made eloquent speeches.

Mr. Bigham will at an early day introduce a bill which it is to be hoped will permanently settle the dispute which every year is waged in Harrisburg among the principals of our colleges. Too much money has already been expended in discussing the different claims presented by these institutions for a portion or the whole of the lands donated by the Act of Congress of 1863, and if Mr. Bingham can prevent further expenditure he will do the State a service. He has his plans mapped out but they are not sufficiently matured to send to you.

On the sixth of next month the National Association of School Superintendents will have a meeting at Washington city. Major-General O. O. Howard will be present and papers upon the following topics will be read:

1. *School Statistics*—their value, the points of inquiry, and the mode of collecting them. By Hon. Chas. R. Coburn, State Superintendent, Penn.
2. *Practicability of Greater Uniformity in the School System of the different States.* By Rev. L. Van Bokkelen, State Superintendent, Md.
3. *National Bureau of Education.* By Hon. E. E. White, State Superintendent, Ohio.
4. *Free High Schools an essential part of each State School System.* By Hon. J. White, Sec. of Board of Education, Mass.
5. *Cost per capita of Education in the different States.* By J. W. Bulkley, Esq., Superintendent of the Schools of Brooklyn, N. Y.
6. *Leading features of a Model State School System.* By Hon. Newton Bateman, State Superintendent, Illinois.
7. *What are the Greatest Defects in the Existing Systems in the several States.* By Hon. C. M. Harrison, State Superintendent, New Jersey.
8. *Special Duties of a Superintendent of City Schools.* By Hon. John D. Philbrick, Superintendent of the Schools of Boston.

The supplement of the act relating to the Buffalo, Bradford and Pittsburgh Railroad Company designates the 2d Tuesday in June 1867, and the same day annually thereafter as the time for electing President and Directors, and extends the time for the completion of the road to the 1st day of January 1872. By the act of 1865 it was to be finished on the 1st of next January. This road is broad guage and is to run from Carrolton on the New York and Erie railroad, ten miles west of Olean, to the Allegheny Valley railroad, crossing the Philadelphia and Erie railroad at or near St. Mary's. About twenty-five miles are now in operation.

The petitions for the relief of soldiers of the war of 1812, residing in Lancaster, still continue to be received. It is an astonishing fact that of the petitions of this kind presented, but few come from any other county in the State except patriotic Lancaster.

The Dollar Savings Institution of Kittanning is to have a capital of $75,000, and the following gentlemen as corporators: Alex. Reynolds, E. S. Golden, John Gilpin, W. D. Robinson, T. McConnell, Sr., A. Reynolds, Ross Mechling, H. N. Lee and J. A. Colwell.

Wool Growers of Pennsylvania.

The following communication should have appeared this morning, but was unavoidably crowded out:

NOBLESTOWN, ALLEGHENY CO., PA.,
January 25, 1866.

To the Editor of the Pittsburgh Gazette:

Now that it is settled that we will have a State organization matured on the 8th proximo, at Pittsburgh, the matter of a tariff that will protect United States wool growers, must be a very prominent problem to discuss. It will be for every wool grower in the State to be present himself, or interest himself to be properly represented if he cannot attend. The agriculturist is very frequently reminded by writers and speakers favoring a protective tariff, that the prosperity of the manufacturer insures the prosperity of the agriculturist. This is not the proper way of having the prosperity come forward. It is "putting the shoe on the wrong foot." It should be that the prosperity of the agriculturist insures the prosperity of the manufacturer. If agriculture is not the corner stone upon which alone the prosperity of a nation rests, then all writers on national wealth and prosperity are in error. The immortal Jefferson said and advocated the doctrine that agriculture being protected "we must now place the manufacturer by the side of the agriculturist."

We hope the representatives who will attend the State Wool Growers' Convention will come up as one man, and pass resolutions calling upon all representatives in Congress to use their energies and influence in earnest, and secure an *ad valorem* tariff that will protect the wool growers of the United States without doubt or hindrance against the importation of wool from all and every other country. It is no longer endurable that freemen who are very generally their own shepherds, paying large United States and State and county taxes, and having to provide for and educate families, shall be brought into competition with foreign lordlings, foreign capital, and foreign pauper labor. Let us ask Congress in such a way that they shall see, feel and realize we are in earnest, and understand that if they do not respond to our just petition favorably, and so as to give us adequate protection as above, that we will see in the future that such representatives as will favor our petition shall represent.

The present is an auspicious time to move in this matter. Our sister State Michigan will soon speak in their State Convention of Wool Growers on this important subject, and other State organizations. Those that have none can be reached, and such petitions and other influences can be sent to Congress during February as shall convince all representatives that the yeomanry of the country are aroused, and are determined to be favorably heard. "Longer forbearance having ceased to be a virtue." The curse of free trade is not congenial to the best interests of the agriculturist, but if it becomes the only alternative, they can endure it perhaps, as well as other citizens. We ask for protection on only one article of agriculture which is indispensable to the whole community, and indispensable to the prosperity of general agriculture.

We hope the wool growers of our State will act on this important question as becometh their interest, which certainly is the interest of the whole country. GLENN & BROTHER.

GENERAL NEWS.

THE Board of Directors of the Grand Rapids and Indiana Railroad held a meeting at Sturgis, on the 16th inst., and elected Judge Hanna, of Fort Wayne, and Hon. George H. White, of Grand Rapids, members of the Board. Judge Hanna is at present Vice President of the Pittsburgh, Fort Wayne and Chicago Railroad Company, and is a gentleman of great experience and influence in railroad matters.—*Detroit Tribune.*

IF a traveler by railway wishes to know the rate of speed at which he is going, he has merely to take out his watch and count the telegraph posts as he passes. The number of posts past in one minute and fifty seconds will indicate the number of miles per hour the train is moving. This of course is based on the assumption that the posts are placed at ten rods interval, which is said to be commonly the case.

IT is announced that Francis II., ex-King of Naples, has no idea of leaving Rome as long as the Pope remains there, though this may not be long. The Pope, whose cheerfulness has been a matter of surprise, does not disguise his sadness now, nor conceal his fear that the fulfilment of the treaty of September, 1864, will probably be the signal for his withdrawal from Rome.

TWO NEW TERRITORIES.—It is expected that in a short time two more new territories will be organized by the Committee on Territories. The rapid growth of our present territories has established the necessity of giving governments to the unorganized and outlying domain. The next new state, after Colorado, will be Nebraska.

THE Reconstruction Committee, says a Washington special, has decided to report another amendment to the constitution, to the effect that Congress shall have power to control all political rights of citizens in every State. The proposition meets with the almost unanimous approval of the Committee.

THE report of the Oil Creek Railroad shows an increase in the business of the road during the past year in gross earnings of nearly 87 per cent. over the preceding year, the business of the past six months being more than $150,000 in excess of the total business of 1864.

WITH the exception of Kansas, Illinois has, on the basis of representation, contributed of three years' men very largely in excess of any other State in the Union. Indiana, Michigan and Wisconsin are next in the ratio of their contribution to the national cause.

A GIRL of fifteen is on trial at Boston for bigamy. Her first husband, married at the mature age of fourteen, is now in the State's prison.

THE population of Boston is 192,324, of whom 6,300 are of foreign birth, and 2,627 are colored.

The Path of Life.

Looking awhile since at a collection of German lithographs, I was struck with one that was simple in conception, and yet of great power and beauty.

It was a picture of a little child in the dress of a pilgrim, walking slowly along a narrow path, which was bounded on either side by a precipice, the hedges of which were hidden from his view by a luxuriant thicket of fruits and flowers. Behind the child is an angel, with a countenance of mixed tenderness and anxiety, his hands placed lightly on the shoulders of the little pilgrim as if to keep him in the centre of the path: while the child having closed his eyes that he may not perceive the tempting snares on either side, is walking calmly forward, content not to see where he plants each footstep, so long as he feels each gentle and guiding touch of the angel upon him. His whole aspect is that of peace, confidence, and conscious safety, so long as he follows the guidance of his heavenly monitor, and presses onward in his way.

As I gazed upon it, several thoughts arose up vividly to my mind; and as the description is itself a picture, others in view of it, may ponder the lesson it suggests, and as they ponder be profited.—*Army News.*

A BREACH of promise case has lately been tried in Luzerne county, in which Miss Carrie Bradley, of New York, a young lady of 23, was plaintiff, and Chauncey A. Reynolds, of Wilkesbarre, widower, aged 61, was defendant. The jury rendered a verdict of $14,000 for plaintiff, defendant being rich and her loss therefore great.

SPECIAL NOTICES.

AYER'S AGUE CURE, for the speedy cure of *Intermittent Fever, or Fever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache or Billious Headache, and Billious Fevers, indeed for the whole class of diseases originating in biliary derangement, caused by the Malaria of miasmatic countries.*

Fever and Ague is not the only consequence of the miasmatic poison. A great variety of disorders arises from its irritation, in malarious districts, among which are Neuralgia, Rheumatism, Gout, Headache, Blindness, Toothache, Earache, Catarrh, Asthma, Palpitation, Painful Affection of the Spleen, Hysterics, Pain in the Bowels, Colic, Paralysis, and Derangement of the Stomach, all of which, when originating in this cause put on the intermittent type, or become periodical. This "CURE" expels the poison from the blood, and thus cures them all alike. It is not only the most effectual remedy ever discovered for this class of complaints, but it is the cheapest and moreover is perfectly safe. No harm can arise from its use, and the patient when cured is left as healthy as if he had never had the disease. Can this be said of any other cure for Chills and Fever? It is true of this, and its importance to those afflicted with the complaint cannot be over estimated. So sure is it to cure the Fever and Ague, that it may be truthfully said to be a certain remedy. One Dealer complains that it is not a good medicine to sell because one bottle cures a whole neighborhood.

Prepared by J. C. AYER & CO., Lowell, Mass., and sold by B. A. FAHNESTOCK'S SON & CO., and by all Druggists. ja16:2mM&wF

RETROUVEY'S TURKISH BANDOLENIAN HAIR TONIC. THE DRESSING AND RESTORER OF THE AGE TURKISH BANDOLENIAN.

RETROUVEY'S TURKISH BANDOLENIAN. What can be more acceptable than anything that will beautify? that will restore nature's decay by stopping the hair from falling out, restoring its natural color, making it to grow in luxuriance and beauty; assist in putting it up according to the present style and fashion and keep it in place? This *Retrouvey's Turkish Bandolenian Hair Tonic* will do, and for proof we refer you to any person who has tried it. It is acknowledged to be the beautifier of the age, the only Hair Tonic and Restorer worthy of the name. In Turkey, in France, in England, in America—everywhere where the "Bandolenian" is known—it is pronounced the *ne plus ultra* of Hair Preparations. Remember, it is free from all metallic poisons that are contained in most Hair Colors and dressings. It is the extract of many flowers and herbs, beautifully put up, an ornament to the toilet.

For sale by all Druggists and Perfumers, wholesale.

FOR SALE--FOR RENT.

FOR SALE.---A Farm of 41 acres and thirty-six perches, situate in Elizabeth township, Allegheny county, Penna. The improvements are a hewed log dwelling and frame kitchen, bank barn and other out buildings; a good orchard, apple and peach trees, of the best variety. The farm is underlaid with coal and limestone of the best quality; a flag stone quar of a No. 1 quality; very easy of access to the Monongahela river at Taggs' Ferry. This small farm I am authorized to sell at very low figures.

Also, A No. 1 stock and grain farm, containing 300 acres, situate in Cherry Hill Township, Indiana county, Pa., near the village of Greenville. The improvements are a two-story frame house; the largest and best barn in the county; fencing generally good; 350 acres cleared; the remainder well timbered. The land is good, large meadows which produce fine crops of hay. It is very convenient to churches, schools, mills, stores, &c., &c. This property will be sold very cheap and on easy terms.

Also, a farm of about 200 acres, situated in West Wheatfield Township, Indiana county, Penna. The improvements are a good, comfortable, two-story Frame House, with 6 rooms, a large frame barn, carriage house, good corn crib, wash house, bake oven and a two-story stone spring house; about 150 acres cleared and in timothy and clover; a good orchard of apple, peach, pear and quince trees. The fencing is generally good. The land is of a good quality, abundance of limestone, and but a short distance from coal. This property will be sold very cheap.

Also, a Farm of about 240 acres adjoining the above. The improvements are a large two story Log House and a large frame barn; 175 acres cleared and under a good state of cultivation; a small apple orchard; a large two-story milk-house. These two farms united would make a first-rate Stock Farm, or will be sold separately.

Also, a Farm of 170 acres, situated in East Wheatfield township, Indiana county, Pa. The improvements are a large Frame House with 10 rooms, log barn with a good shed all around; 50 acres cleared; two tenement log dwellings; apple orchard; very convenient to church, schools, stores, &c. A portion of the purchase money will be taken in well located land in Iowa.

Also, a Farm of 183 acres in Elizabeth township, Allegheny county. The land is of the best quality; a very large orchard of the best variety of fruit. This farm will be sold at a very reduced price. Possession given on the 1st day of April, 1866.

Also, the best farm in Fairfield township, Westmoreland county, Pa., containing 240 acres; about 6 miles south of the Pa. Railroad. The improvements are two large hewed log houses; one of the largest and best frame barns in the township; two apple orchards. The whole farm is under a high state of cultivation. The fencing is all No. 1. The land is of the very best limestone; about 200 acres cleared, the balance in good timber. Possession on the first day of April, 1866. This property will be sold at a great bargain. The owner wishes to engage in other business.

Also, several other Farms ranging from $20 to $200 per acre.

Also, a Farm of 150 acres, situate in McCandless township, Allegheny county, Pa., about 8 miles from the city. The improvements are a Log House, a good barn, a young orchard of apple, peach and pear. I will sell this valuable property very cheap and on easy terms.

INSURANCE

INSURE YOUR LIFE IN THE

CHARTER OAK LIFE INSURANCE CO.,

of Hartford, Conn.

THE ONLY LIFE INSURANCE COMPANY IN AMERICA that now makes and pays an Annual CASH DIVIDEND on the first and each subsequent payment of premium. Its CASH CAPITAL, an accumulation of $1,500,000, is securely invested in public stocks and mortgages of REAL ESTATE. It is now in its 16th year of business, and has paid to the WIDOWS AND ORPHANS of its members the sum of ONE MILLION DOLLARS. To this date not a single case of litigation has occurred, an evidence that liberality and fair dealing is a specialty with this Company.

The policies of this Company are not forfeited by reason of non-payment of premium after the second year. No payments required after ten years, but policies continue good through life.

CITY AND SUBURBAN.

House of Refuge of Western Pennsylvania—Visit to the Institution.

Not long since we were informed that a stranger, while sojourning at one of our hotels, in answer to an interogatory put by him to the proprietor regarding our public institutions, received the response that they consisted of a Penitentiary, Jail, &c., leaving out altogether that interesting as well as extensive and important establishment, the House of Refuge. Having occasion to visit the locality in which it is situated a day or two ago, we dropped into the institution, and under the escort of R. N. Avery, Esq., the worthy and efficient Superintendant, visited the various buildings and were pleased and amazed at the extent of the improvements made since our last visit, four years ago. New apartments had been constructed, old ones remodled, and several new and commodious buildings erected.

Passing through the workshops, we found the younger class of boys knitting socks, making suspenders, &c., and the rapidity with which their fingers handled the slender needles, would put to blush many damsels who consider themselves calculated to make good housewives. The elder boys were engaged in other large and commodious apartments, making shoes, whips, suspender-straps, and other articles, while the girls were sewing and performing other work of a household character. An air of contentment appeared to pervade the shops, and large and small appeared to perform the duties assigned them with commendable willingness. Six hours per day are devoted to work and the rest of the time in school, devotional exercises and at play. The male and female inmates are kept separate and at no time are they permitted to hold converse with each other. Those [girls] who have not been guilty of criminal acts, but have simply committed light offences, are separated from those who have been guilty of immoral and vicious crimes.

The schools are most admirably conducted by a corps of competent and worthy lady teachers, and are fully equal, if they do not surpass the best of our public schools. These ladies seem to have a just appreciation of the sacred responsibilities and important duties devolving upon them.

There are at present in the Institution one hundred seventy-seven boys, and sixty-three girls; being twenty-six less than there was in January, 1865. The health of the inmates is remarkably good, and it may be of interest to the friends of those who reside at a distance from the cities, for us to state that there is not a case of sickness in the Refuge, a fact that speaks well for those having the little unfortunates in charge.

Additional improvements are fast approaching completion, while still others are in contemplation. A new and elegant two story brick building, having capacity for the accommodation of from forty to fifty of the smaller boys, is nearly ready and will be occupied in a few weeks. The engine house, a fine edifice recently erected on the bank of a river, is nearly finished, and as soon as the necessary machinery is put in, will be ready to force up a full supply of water. The old engine house, which now adjoins the main building, will be torn down, as will also the gas house, so soon as a proper structure can be erected adjacent to the water works. Other minor improvements are in progress, which, when completed will add much to the beauty and attractiveness of the ground. In this brief article we cannot even advert to the many attractions presented to the view, but can say from a personal knowledge of similar institutions elsewhere, the people of Western Pennsylvania have a good right to be proud of this monument of their benevolence.

The new and excellent system of government introduced by Mr. Avery, seconded by his assistants, works to a charm, and is unsurpassed, if equalled by the discipline of any other similar institution in the country. The various wards and apartments are kept as clean and bright as a new dollar, and the ambition of many of the inmates appears to be, to see who can excel in cleanliness.

Such in brief, is the asylum for the unfortunate, wayward and erring youths of Western Pennsylvania. Many there are, the recital of whose early history would bring tears to the eyes of a stoic. Without parents, their early childhood has been "one dark night of wretchedness," till at last, driven to depend on the charity of the world, poor homeless wanderers, they are furnished in the Refuge with the only home they have ever known.

Case of Infanticide.

Crime still stalks aborad in the land. Another case of infanticide, in which an unnatural mother leaves her newly born infant, in a nude state, on the icy pavement to perish, has come to light. On Sunday morning, between eight and nine o'clock, a little girl, who serves Gen. Sweitzer, residing on Fourth street, near Wood, with milk, discovered an infant male child lying on the ice in the alley leading to the rear of the General's dwelling. The little girl was greatly alarmed, and at once communicated the intelligence to the family. Gen. S. repared to the spot and found matters as stated, the child being dead. He at once proceeded to the Mayor's office and informed the police, who removed it to the office. Coroner Clawson was made acquainted with the fact, and summoned a jury of inquest, but no evidence could be elicited throwing the least light upon the affair. Who the mother of the child is, or under what circumstances she came to desert her offspring in the cruel manner she did, is still shrouded in mystery. It is not probable, however, that it will long remain so, as active measures are being taken to discover the guilty party. The Coroner's jury adjourned to meet this evening at seven o'clock, when Dr. Geo. McCook will give his opinion as to whether the child was born alive. It is fully developed, and must have had its birth during the night of Saturday.

The Operations of the Reading Railroad.

We learn that this company designs building a branch road from their main line at Port Clinton or Hamburg, to strike the East Pennsylvania railroad at or near Topton, for the purpose of accommodating the great trade expected to be obtained by the recent arrangement between the Reading and the Atlantic and Great Western railroads. This road has obtained the control of the East Pennsylvania railroad, from Reading to Allentown, and will immediately proceed to extend it to the Delaware at or near Easton. It has obtained the control of the Reading and Columbia railroad. In addition, it has leased the Branch Union canal from the Big Dam to Pinegrove, and the canal company's railroad from Pinegrove to the Swatara junction. This insures the construction of a railroad from Lebanon to Pinegrove, and the improvement and enlargement of the Union canal for a tonnage of 125 tons

Adams' Dramatic Association.

This Association, composed of ladies and gentlemen of Pittsburgh and Allegheny, was organized November 25th, 1865, with the full consent of the distinguished young tragedian, Edwin Adams, to use his name, with his best wishes for its success. The hall of the Association is located at the corner of Sandusky and Lacock streets, Allegheny City, the old College Building, and we understand that it is at present in a most prosperous condition. Some of the brightest stars in the theatrical firmament have learned the first rudiments of their professions in associations similar in character to the Adams' Dramatic Association.

Horrible Accident.—The Juniata *Register* says a man named James Hartman, of Perry county, and employed as brakesman on the Pennsylvania Railroad, had his right arm crushed to a jelly, and injured so seriously internally, by being caught between the bumpers of two freight cars, at the Patterson depot on Monday night, that he is not expected to

Skating at the Parks.

We took occasion on Saturday to visit both skating parks, in order to judge for ourselves as to the amount of patronage they were receiving, and we think we can safely advise our friends who wish to invest their surplus change, to buy all the skating park stock they can lay their hands on. We visited during the afternoon the Central Skating Park, which we reached by hanging on to the outside of one of the Citizens' Passenger Railway cars. We took an early start in order to obtain an easy seat in the car, but were informed that the cars had been filled that way all day, notwithstanding the fact that the Company had put on five extras. Arriving at the park, we found the house as full as it could be packed, and the ice was in pretty much the same predicament. Youth and old age, gay and sedate, ranging from the old grandfather and mother down to the "wee one," if not more than five or six, all were there enjoying themselves to the utmost. Benches were arranged all around the Park for the benefit of those who either did not skate or wanted to rest themselves. Then, when they got cold or hungry, all they had to do was to step in-doors and warm themselves, or get a cup of hot tea or coffee from Jonas Smith, who also furnished the substanials, in the way of something to eat. At night a band of music was in attendance, and the crowd was much greater. We enjoyed ourself hugely for about two hours, and had the satisfaction of being informed by a lady present, that if we were not a very graceful skater, we were a useful one, as a fashionable card-party might play euchre upon our coat-tails as we sped along with the speed of the uncaged wind, (that's poetry !) were it not for the fact that our arms flew around somewhat after the fashion of the arms of a wind-mill. Our "spread eagles" were surprising. We will show a curious public some day how to execute the "spread eagle" maneuvre.

In the evening we adjourned to the Union Park, and there the sight was bewildering. On the ice, around the ice, in the house, in carriages, in fact everywhere there was crowded a living mass of humanity. Chinese lanterns, reflectors and bright eyes illuminated the entire park. To don the "skeeting irons" was the work of a moment, and again we astonished the natives by our peculiar manner of handling our feet. One gentleman, to be sure, had the impertinance to ask us "what we were sitting thar fer," but we cooly informed him that we were somewhat heated, and desired a little relaxation from the exhilarating sport. The fellow actually doubted our word, and intimated that we fell. If we did, we fell at the feet of beauty, and that is some consolation. We should not have mentioned this circumstance, only to show to what an extent of depravity envious minds are capable of falling. But enough of the "fall."

An old gentleman had by some means got into the car, and while conversing in regard to the amusement of skates, he asked the question "but will it pay?" Yes, Doctor, it will pay. It pays in health, in freedom from headaches, bone-aches, back-aches, although it sometimes does give the head-ache, but that is easily cured. It pays in more ways than one. We came to the conclusion moreover never to believe a young lady again when she says she cannot do a good, hard, honest day's labor over the wash tub, for any one who can spend hours upon skates, can do almost anything.

It is variously estimated that there were from four to eight thousand visitors at each park on Saturday. An enterprising young friend of ours intends to sit at the door of one of the parks the next time they are open, and "tally" the people as they go in, and thereby obtain an accurate knowledge of the number of patrons who will visit it during one entire day.

Go and Redeem It.

On Friday night during the time that Central Park was open for the benefit of the poor, a gentleman entered the refectory of the Park House, and asked Mr. Jonas Smith, the proprietor, if he could leave his coat there, stating that he could not get it checked in the check room. Mr. Smith, with that urbanity for which he is remarkable, told him that he could. The coat was placed in a secure place, and in course of time the man called for it. He inquired the charge for taking care of it, and was informed that no charge was made—that on that occasion the Park was open for the benefit of the poor, and that anything he saw fit to give, would be devoted to their use and benefit. The gentleman remarked that he had nothing less than a five dollar bill, but that if Mr. Smith would change it, he would contribute a quarter. The bill was passed over the counter—a very nice bill it was too—and he received his change, four dollars and seventy-five cents. The bill afterwards proved to be worthless, and the gentleman is requested to call upon Mr. Smith and redeem it, otherwise his name will be made public, as he is well known. We do not know that the gentleman passed it knowing it to be a worthless bill, for it certainly is a good looking one, and one we should have taken without a moment's hesitation, but the best way to show the honest intention, is to go forward and redeem it.

Benefit for the Poor.

We are officially informed that the late benefit given by the managers of Central Skating Park, for the benefit of the poor, yielded the following handsome sum:

From sales of tickets	$177 25
From Jas. A. Shinn—skate room	17 00
From Jonas Smith—restaurant	10 00
Total	$204 25

This is a handsome sum, and it is pleasing to note the fact that while those who can spare the time and means to enjoy the exhilerating and health-giving exercise of skating have a thought for the poor in their midst. "He that giveth to the poor lendeth to the Lord" is a Bible truth which cannot be too often pondered upon. The money will be handed over to Rev. Mr. Passavant to-day, and will by him be distributed among the poor of the two cities.

Clever Dodge to "Raise the Wind."

Officer Messner, of the Mayor's police, armed with a search warrant, paid a visit to several pawnbroker and second hand establishments, in search of a melodeon. Information had been made by Mr. Mellor, setting forth that he had leased a melodeon to a Mrs. Williams, whom he had reason to believe had disposed of the same in a fraudulent manner. After a search of a few hours Messner found the musical instrument at Le Roy's, corner of Sixth and Smithfield streets, where it had been pawned by Mrs. Williams for $38. Mrs. W., who is a stranger in the city, after "raising the wind," left for parts unknown, leaving the pawnbroker to chew the bitter cud of disappointment. Of course Mr. Mellor regains his property.

Trouble Brewing.

We noticed a day or two since that certain iron establishments in this city and vicinity had recently notified their employees that from and after Saturday last they would be required to submit to a reduction of the wages previously paid. On Saturday evening the Boilers' Association held a meeting to take action in the matter. The conclusion arrived at was not officially announced, but we were assured by those who had good means of learning the facts, that they would not go to work to-day unless they secured the prices heretofore paid. Of course if the boilers quit work, the rollers and others connected with the mills will be compelled to do likewise. Thus the matter stands at present, and whilst we sincerely trust that it may be amicably arranged, yet it must be confessed that things look as though there was trouble ahead.

Police Appointments.

The following are the appointments to the duties of policemen, under the administration of Mr. McCarthy:

CHIEF OF POLICE—Robert Hague.

DAY POLICE—Fred. Rivers, Joseph Cupples, A. J. Gribben, James Scott, John Rigley, Joseph Busha, A. J. Moon, John Lowe.

Six of the above appointed policemen have had considerable experience, and are spoken of as men of ability. The others are untried, but have been selected on account of their private worth as citizens. In regard to the appointment of Mr. Hague, he is well known to our entire community, having before served in the capacity of Chief of Police, in which character he is known almost all over the United States.

Amusements.

THEATER—It gives us pleasure to announce the fact that the manager of the Theater has effected another week's engagement with the great actress, Mrs. F. W. Lander. To-night she appears in the character of Charlotte Corday, a character made historical by the French Revolution.

OPERA HOUSE.—The beautiful Miss Melville makes her first bow to a Pittsburgh audience this evening, in the character of Fanchon, the Cricket. Although but sixteen years of age, she is spoken of as a prodigy. We hope her engagement may prove a successful one.

Book Notices.

THE EVENING JOURNAL ALMANAC for 1866. Albany, N. Y: Weed, Parsons & Co. Price 25 cts.

This is a new venture, which aims to combine all the valuable features of the Tribune Almanac with several more. It contains 174 pages, but half of them are devoted exclusively to the State of New York. Of course its chief value is in that locality.

NED MUSGRAVE; Or the most unfortunate man in the world. By Theodore Hook; Philadelphia: T. B. Peterson & Bro. For sale by H. Miner.

Miss Susannah Evans, the gifted young Welsh girl, who has been captivating the lecture-goers of the eastern cities, is now traveling westward, and has engaged to deliver one lecture in Excelsior Hall, Allegheny, on to-morrow (Tuesday) evening. We have read such favorable criticisms of Miss Evans' lectures in Brooklyn, Boston, New York, New Haven, and elsewhere, and from such excellent authorities as Dr. Cuyler, Mr. Beecher, and others, that we feel constrained to urge our readers to make their arrangements to attend the lecture in Excelsior Hall, on Tuesday evening. The gentlemen of the Lecture Committee of the Allegheny Library Association deserve encouragement in their efforts to contribute to the intellectual programme of the lecture season, now nearly over.

Another Man Mangled.—The Meadville *Republican* says that the exceedingly careless and reckless fashion of coupling cars, which brought death to a man only a few days ago, resulted in another "accident," on Thursday. It was a sleety morning and the track was slippery. The breakman tried to get in between the cars while in motion, to couple on the caboose. He neglected to take hold of the hand rail; the cars behind struck him on the back; he slipped and fell; and a car heavily laden with oil passed over him. Both legs were broken and mangled—the left, about the knee joint, the other near the ankle. The man was taken to the City Hotel, where he received every attention. But surgical skill was unavailing, and he died last evening.

His name is Rodney A. Chipester, and his residence is in Salamanc

Arrival of Carrie A. Moore.—For some time past the public have been on the tip toe of expectation, anxiously awaiting the arrival of Miss Carrie A. Moore, who is said to be the finest female skater in the United States. We are happy to announce that she will arrive this afternoon at three o'clock, and if the weather permits, will make her first appearance at Central Skating Park to-morrow afternoon. In the meantime the park is being put in the best of order, and no visitors will be admitted to-day. A certain portion of the park will be set aside for her especial benefit, and those who wish to see to what perfection the art of skating can be brought by ladies, will have an opportunity of witnessing her feats. Should the weather prove unfavorable, due notice of her appearance will be given.

Death of a Well Known Citizen.—We are pained to announce the death of Mr. Robert L. McGrew, a well known and highly respected citizen of Allegheny county, who departed this life yesterday morning at his residence in McClure township. The deceased was well known in business circles and was justly esteemed for his probity and honorable dealing, and among the wide circle of his friends and acquaintances he was universally respected. In his death, his family suffer an irreparable loss, and the community is deprived of one of its most valued citizens. The deceased was upwards of fifty years of age, and died of consumption.

Grand Lodge Officers.—An entertainment will be given at Lafayette Hall, Wood street, this evening to the Grand Lodge Officers, I. O. O. F., of Pennsylvania under the auspices of the Center Hall Association. The committee having charge of the arrangements for the entertainment has left nothing undone which could tend to render the reunion entertaining and agreeable. At ten o'clock the guests will partake of supper prepared by Schild, whose previous efforts in that line affords ample evidence that the repast will be worthy the occasion. The Entertainment will be largely attended by the members of the Order, and an agreeable evening awaits all who may be present.

Still Advancing.—On Thursday, at Harrisburg, fifty choice mules were sold, at the Government stables, at an average price of *one hundred and fifty dollars and a half* per head—an advance of two dollars over the average figures of the previous sale. A single pair of matched mules, jet black, and sixteen hands high, were sold yesterday for $480.

Thirty-two hospital mules were also disposed of at an average of $83 60 each.

A Haul.—The Allegheny police made a descent on a crowd of boys who were coasting down Boyd Street, on last Saturday night. On the approach of the police officers, the offenders fled, leaving their running gear behind, and as a consequence, sleds of various dimensions were confiscated and stored away in the Mayor's Office.

Man Injured.—Wm. Metzer, Engineer at the Superior Iron Works, West Manchester, while arranging a pump, by request, at the Brownston Iron Works, on Saturday, had the forefinger of his right hand cut off by being caught between the plunge and cylender.—Dr's Dickson and Hamilton of Allegheny dressed the injury.

First Universalist Church.—The repairs which are being made in the church edifice on the corner of Third and Grant streets, purchased some time since by the members of the First Universalist church, of this city, are nearly completed. The church will be dedicated with appropriate ceremonies, on which occasion several ministers from a distance will officiate. Due notice of the time will be given.

Fined.—Henry Rittenbaugh, George Martin and Hugh Brennan, were drunk and disorderly in Allegheny on Saturday night, and upon refusing to go home were conducted to the tombs by officers Bowden and Campbell. The last two got drunk in anticipation of a Fenian invasion of Ireland, and were each fined one dollar and fifty cents and costs. Rittenbaugh was fined two dollars.

Call Accepted.—Rev. Dr. Paxton, of the First Presbyterian Church in this city has accepted the call of the First Presbyterian Church of New York, late under the pastoral control of Dr. Phillips. Dr. Paxton during his ministry here ranked among the most able and eloquent pulpit orators in the City, whilst his reputation as a christian man was without spot or blemish.

Commifted.—Peter Slater, the negro charged with stealing a coat and other articles from a colored man by the name of Thornton Thompson, had a hearing before Mayor Morrison on Saturday evening, and was committed to await the charge at Court.

Charge of Larceny.—Officer Willison yesterday arrested the man named Sullivan, charged by one McNally with stealing a satchell belonging to him. The missing article was found in Manchester. The accused will have a hearing to-day.

Evidently Crazy.—The postmaster of Steubenville, Ohio, notifies "the person who paid a gold coin in mistake" at that office to call and prove property and take it away. That individual was evidently crazy.

FROM SATURDAY EVENING'S GAZETTE.

The Girl Found in a Haystack—Confirmation of her Story.

The Lawrence *Journal*, just received, confirms the truth of the story which we gave a few days ago, in reference to the finding of the young girl, Louisa Black, in a haystack on the farm of Wm. Cornelius, in Lawrence county, where she had remained without food for twenty-three days. When found she was in a dying condition from starvation and exposure—both feet being badly frozen. Her physicians found it necessary to amputate both feet, and the *Journal* describes the operation as follows:

On Friday morning of last week we left for North Beaver, and when at Mount Jackson we learned that she had been removed from Mr. Davidson's to the residence of Mr. Arthur Rogers, in the same township, and that on that day her limbs were to be amputated. On reaching the residence of Mr. Rogers, we found a number of citizens there from the neighborhood, and Louisa had been placed on the amputation table and was under the influence of chloroform. The right foot had fallen off at the ankle joint, except the ligaments when she was placed on the table. Being under the influence of chloroform, she had the appearance of a corpse. The following named surgeons were present: Dr. E. F. Davis, of Poland; Dr. G. W. Pettitt, of Petersburg, Ohio; Drs. H. E. Zimmerman, D. Acker and James Jackson, of Mount Jackson, Pennsylvania. The preparations were all made and Dr. Davis performed the first cutting on the left limb. The bone was sawed, the arteries taken up and the wound dressed in less than half an hour, the patient not being conscious of what was going on. The surgeons then placed a bandage around the right limb preparatory to its amputation, when Dr. Zimmerman did the cutting, and it was soon off, each one of the surgeons assisting to expediate the operations. Both limbs were amputated about four or five inches below the knee joints. It was with difficulty that the arteries could be taken up on the limb as the blood did not flow free enough to show their location. About this time Dr. Pettitt, who administered the chloroform, suggested that the patient had better be waked up, when restoratives were administered and she soon showed signs of consciousness and recognized the surgeons and others present. She said, "yes Jim, I know you," meaning Mr. James Cornelius. She then inquired, "where is my preacher?" she had reference to Rev. Mr. Taylor, and was told that he could not stay—he had left. This announcement appeared to wound her feelings very much, after which her countenance, in an instant, appeared to brighten, when she added, "my Saviour has not left me, He is good." She was asked how she felt; she replied that "she felt pretty well, but sleepy," and then asked if the surgical operation was over. She was told that it was—she still pressed her interrogatory, "if both were amputated;" she was answered in the affirmative—that both feet were off—when she spoke of the kindness of the physicians, and commenced singing:

> "I'll stand the storm, it won't be long,
> 'We'll anchor by and by;'
> Next the week, the month, the year,
> Steal away and disappear."

When her voice was too weak to sing further, and she appeared to be more composed. The right limb was still to be dressed, and she was informed of the fact by Dr. Zimmerman, when she said, "O, Doctor, you have been so kind to me." About this time the needle passed through the flesh to close the wound when she said, "You are cutting me." Dr. Zimmerman informed her that they were only sewing up the wound, and that she should hold still, it would soon be over. We then watched her countenance at every stitch taken, and there was not a frown upon her brow during the dressing of the limb. She was then placed upon a bed and after eating some ice, slept a short time—then awoke, spoke to the physicians of their kindness again and "prayed that the Lord would bless them"—adding she "knew He would." Previous to the amputation she was told that in all probability she might die in the operation. At that she was not at all daunted, and said that she "wanted both feet taken off—she could not live with them on, and if she died in the operation she would go to Jesus—for I know He liveth." Rev. Taylor prayed with her, and she prayed verbally for herself, and afterwards stated that what she had previously said in relation to herself was true. We should judge that she was about 20 years of age—she avers that she is about sixteen—however, her manner of living and her hardships might add a few years to her appearance. She is rather handsome, with a fine set of teeth, blue eyes—one is sightless—curly auburn hair, fair complexion, face, hands and arms rather plump, when we remember that she was out in the cold without food for twenty-three days. We think she is of English descent—of strong mind, and a pretty fair education. There is a great mystery about her, and if the account, which we published last week, is true, still greater is the mystery. She says her mother's maiden name was Ellen Shaw.

When we last heard from her she was still living; however it is very doubtful if she recovers, as she has taken no nourishment that would lay on her stomach for four days past. Her wants, however, are well supplied, as Jas. C. Cornelius, Stephen M'Curley and Miss Rogers have volunteered to nurse her and anticipate all her desires, both temporal and spiritual, as far as they possibly can do so.

National Bank Notes Imitated.

We were shown this morning, by Messrs. J. F. Bernard & Co., publishers of the *National Bank Note Reporter* of this city, a counterfeit twenty dollar note on the First National Bank of Indianapolis, Indiana. The note is not so well engraved as the genuine, but would deceive most persons. Extra care should be taken in receiving all twenties of the National banks, as the plate, being uniform in design, can be easily altered to suit the same denomination of note on any National Bank in the country. The engraving on the back of the note represents the "Baptism of Pocahontas," and is poorly executed. The paper is stiff and hard, and the engraving on the face of the note will not bear close inspection. The readiness with which the National notes are taken, however, especially by those who do not handle much money, renders this imitation a very dangerous one, and we warn our readers to be on their guard in handling notes of the denomination mentioned.

The Criminal Court.—No business of public importance was transacted in the Criminal Court to-day.

Resisting the Bounty Tax.

The assessment of poll tax for bounty purposes in a number of districts throughout the county, under an act of Assembly authorizing the same, has given rise to considerable grumbling and dissatisfaction among a certain class, and while many have threatened to resist the payment of the same, few have had the hardihood to put their threats into execution. Among these few are two residents of the Fourth Ward, Allegheny, named William Rensebrink and William Fark, who refuse to pay an assessment of $27,50 regularly levied upon each of them. Having "no goods or chattels" out of which the amount due could be realized, the collector, Mr. Robert Bole, issued his warrant to David S. McKnight, constable of the ward, and the men were both arrested and lodged in jail. The warrant commands the Sheriff "to receive the bodies of the said parties, and them safely keep until the aforesaid taxes and costs are fully paid or secured to be paid, or until otherwise discharged by due course of law." The men assign as a reason for not paying the tax, that they are *aliens*, and consequently not liable. They will find out ere long that, however convenient it may have been for them to dodge the draft under the plea of alienage, that plea will not exempt them from the payment of whatever taxes may be assessed against them. The parties are still in jail, and are not likely to get out until they pay the demands against them.

Commissions Received.—The commission of R. B. Carnahan, Esq., as United States Attorney for the Western District of Pennsylvania, has been received, and was read in the United States District Court to-day. It bears date of January 15th, 1866, and expires on the 15th of January, 1870. The commission of A. Murdoch, Esq., as United States Marshal for the same district, has also been received, but as Mr. Murdoch is absent from the city it was not read.

Fatal Leap.—Richard Taylor, a boy of about twelve years, son of Mr. David Taylor, of Melrose, was killed by jumping from a train of cars on the Boston and Maine railroad on Friday. He got upon the Portland train for Boston to ride to the Wyoming station, supposing that it stopped there, and as it did not, he jumped off and received the injuries which resulted in his death.

Sickness in the Jail.—Catharine Melville, a resident of Roberts street, in the Seventh ward, and committed to jail on a charge of keeping a disorderly house, was ordered to be removed to the Mercy Hospital to-day, being seriously ill with typhoid fever. A colored man named Wm. Smith, charged with vagrancy, was also removed to the same institution, having been attacked with small pox.

Allegheny Fire Company's Annual Ball.—The annual reunion of the Allegheny Fire Company came off last evening at Lafayette Hall, and was attended by at least two hundred and fifty couples. Everything passed off with the best of order. The music was good, the dancing excellent, and the supper, served by Mr. Herman Sherman, superb. Long may the Allegheny wave.

To be Hung.—On Thursday last, death warrants were issued directing the execution of John B. Hauser and Daniel Bowser, convicted of the murder of the two women, Paul and Munday, in Cambria county. The condemned men formerly resided here, and had just been released from our penitentiary before committing the murder. They will be executed at Ebensburg.

The "Story of the Grand March," being Major General Sherman's several reports on that subject, have been gathered into one little volume and published by Beadle & Co. Price ten cents. For sale by Gildenfenney, 45 Fifth street.

Commitment Lodged.—The Mayor to-day lodged an additional commitment against the man Deary, charged with receiving stolen goods from the burglar Hermann. The information in this case was made by De Witt C. Bidwell.

FINANCE AND TRADE.

OFFICE OF THE PITTSBURGH GAZETTE, }
SATURDAY Jan. 27, 1866. }

There is no new feature in our local stock market worthy of special notice. For Bank shares there is still considerable inquiry, though the extreme views of holders restricts operations. Insurance, Railway and Bridge Stocks dull and nominal. There was some inquiry for Allegheny Valley Railroad stock to-day, but we are not cognizant of any having changed hands. Oil shares continue very dull and neglected, and with the exception of an occasional sale of Columbia, there is next to nothing doing in this class of securities.

Gold remains without material change—it has been fluctuating for some days past between 139 and 139¼. Governments are in better demand, and a fraction higher, in consequence of the encouraging advices from Europe by the last steamer.

—The following paragraph from the Cincinnati *Gazette* confirms the report that the west is filled with produce yet to come forward by rail to the seaboard. The delay in the movement of the pork crop accounts in part for the partial falling off in receipts in December on the western roads:

"Within the last six weeks there has been paid out at this place alone, for hogs, about $9,000,000. This was mostly Cincinnati capital, and the great bulk of the products resulting from this business are still held here. Prices are nearly as high in Cincinnati as in New York; consequently, there have been no shipments of consequence to the eastern seaboard. This accounts for the scarcity of money on one side. Ordinarily, the money paid out for hogs, would, in a large part, have been back by this time through the usual channels of trade; but this inward flow of currency has not yet set in. Country merchants are very slow in remitting.

—The late European news is generally regarded in financial circles as rather more favorable, owing to the expectation which had prevailed of a further advance in the Bank of England rate of discount. The bank rate remains unchanged, but the aspect of monetary and commercial affairs in Great Britain is by no means reassuring, and the London *Times* and other journals are busily sounding an alarm which may not be fully justified by the facts, but nevertheless their warnings tend to further unsettle the markets and promote that panic-like condition of things which they predict.

—The Commissioner of Internal Revenue recently received a communication from a farmer, inquiring whether farm products sold in 1864, which had been assessed in 1863, are liable to taxation. In reply, the Commissioner decides that there is no provision of law for exempting farm products from tax when sold on account of having paid a tax already; and in the second place, it is clear that, in a majority of cases, it is only apparently the fact that a second tax is paid; and, consequently, the tax will be assessed upon the value of a year's crop.

—The Pit-hole *Record* indorses the call for a convention of oil producers in Titusville on the 1st of February. The *Record* says:

"If our oil producers do not attend to the matter personally and promptly, it stands a very poor prospect of being attended to at all. The inherent sense of justice in Congress needs a little stimulus to bring it into active development."

—An effort is to be made at New York to continue the Columbian Marine Insurance Company on a capital reduced about one-half. As this, however, will require legislative action, it is doubtful whether the carrying out of the proposition is quite certain. As is usual on occasions of this character, the stockholders, in view of the huge losses, are beginning to despond, and in fear of personal liability are gradually shrinking from the attempt to resuscitate. The past history of bank and insurance failures is to the effect that first reports made are seldom if ever maintained by time and full examination. Often liabilities that might be recovered if the institution had not failed, are lost because that class of debtors which is honest enough to pay to secure further favors of credit, will not give themselves much trouble, that inducement being removed. The first loss is usually least, and so it is intimated the stockholders of the Columbian are disposed to consider their case, and to realize as they best can. A bill is before the New York Legislature which provides that hereafter any person holding a claim against any Insurance Company doing business in that State, growing out of the issuing of any policy, shall, in case of an action at law, be entitled to recover, in addition to the amount adjudgd to be due on said policy or demand, a further sum of not less than ten nor more than fifteen per cent on the amount awarded as damages, and, in case of an appeal, a sum of fifteen per cent and costs for each appeal. All suits against insurance companies shall hereafter have preference in all the courts of the State.

—The Chicago *Tribune* of Saturday reports money matters in that city as follows:

"The continued liberal receipts of Hogs is beginning to tell on the money market, which is again quite stringent. Almost every mail brings heavy drafts from the interior for currency to move the hog crop, and some of our bankers begin to think that it was not so "short" as was imagined. To-day a little bank located at McGregor, Iowa, drew out of a bank in this city not less than $65,000—all for hogs. Heavy remittances are also being daily made to Dubuque, Davenport, Clinton, and other points in Iowa, for the same purpose.

"Under these circumstances, the pressure on the money market to-day was felt to be quite severe, and a closer discrimination than is usual was made to-day at the discount house; but the rate of discount is steady at 10 per cent per annum. Street rates are firm at 1@2 per cent per month."

New York Stock and Money Market.

NEW YORK, Jan. 27.—Money steady at 5@6 per cent. Sterling dull at 108¾@108⅞. Gold rather easier, opening at 139½, declining to 139¼ and closing at 139¾. Exports of specie to-day $341,100. Government Stocks a shade better. Freights to Liverpool, quiet and very firm.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, }
SATURDAY, Jan. 27, 1866. }

The attendance on 'Change was again large to-day, embracing quite a number of the dealers in Grain, Flour, Groceries, Petroleum, Produce, etc. etc., and considerable interest was manifested in the proceedings by those present. Among other articles offered for sale, we can report 800 bbls salt, 100 doz brooms, 100 bushels cloverseed, 200 bbls flour, and several car loads of Grain. The following new firms made application for membership and were received: R. Knox & Son; Waring & King; F. H. Eaton; John Shepard; G. N. Hoffstott; Shriver & Lazear; and James McKenna. Dispatches were read from Chicago and New York, giving full details of the markets, and from Cincinnati, Louisville and St. Louis in regard to stage of water and movements of steamers.

GRAIN—There is some little inquiry for prime Wheat, and but comparatively little offering in this market. Oats steady with sales of 1 car at 46; and 250 bush from store at 48. Corn is steady with sales of 1 car Shelled at 69; 1 do do at 70; and 500 bush, in lots, at 75. Barley is dull and irregular; sale of 1 car Spring at 75. Nothing doing in Rye.

FLOUR—Is dull and nominally unchanged. We continue to quote at $8¼@8½ for Spring Wheat, and $10¼@10½ for Winter Wheat brand. Sales of 100 bbls "Star of the West" and "City Mills of Springfield" at $10,40. Buckwheat Flour is selling at $4½@5 per cwt, and Rye Flour is quoted at $6@6¼ per bbl, in small lots from store.

PROVISIONS—Bacon is steady with a moderate jobbing demand at previous quotations. Lard is dull with sales at 16@17 for country, and 18@18½ for prime city. Small sales of Mess Pork at $28½@29 per bbl. No movement in Bulk Meats. Dressed Hogs may be quoted at 11@12 cents, for fair to good averages.

MILL FEED—Dull but unchanged. Sales of 5 tons Middlings at $1,50; 5 tons Ground Screenings at $1,30; and 5 tons Seconds at $1,12½.

POTATOES—Sale of 125 bbls Peach Blown at $3,50 per bbl; sales in sacks, from store, at $1,15 @1,20 per bush.

APPLES—Coming more freely but prices are maintained—$7 to $8 per bbl, for prime to choice.

SALT—Is dull with more sellers than buyers—some 1,000 bbls were offered on 'Change yesterday and to-day at $2,65@2,70 per bbl. Small sales from store at $2,85@2,95.

BUTTER—Is dull but nominanally unchanged; sales of good to prime Roll reported at 30 @33.

EGGS—Fresh packed may be fairly quoted at 30 per dozen, with a supply somewhat in excess of the demand.

CHEESE—Is quiet and and unchanged—21 for Hamburg, and 22 for Goshen.

CRANBERRIES—Dull with small sales at $14 to $16 per bbl—the latter figure for cultivated.

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE }
SATURDAY, Jan. 27, 1866. }

The Petroleum market has been dull and neglected all week, and to-day does not appear to have been any exception. Quotations may be given at 20c, bbls returned; and 25 bbls included. It was reported that a sale of two thousand barrels had been effected to-day at 25c, bbls included, and we hear it rumored that ten thousand barrels were contracted for during the early part of the week at 20c, by one of our most prominent dealers, to be delivered on the opening of navigation. We give these reports as rumors, not being prepared to vouch for their correctness, but we have reason to believe that they are correct. Refined, in bond, is in demand, both for present and future delivery, but the figures named by buyers are very low—considerably below the views of sellers. We can report a sale of 500 bbls, "Standard" brand, for immediate delivery, at 47c, free on board cars here, and this is the first sale we have had reported for several weeks. Free Oil is dull and entirely nominal—an occasional small sale at 66@68, for prime city brands. Residuum is more active but lower; sales of 100 and 112 bbls at $4,75 per bbl. No movement in Naptha.

Review of New York Grocery Market

(From the Commercial List, Jan. 27.)

Coffee—Since our last there has been less movement in Brazil, but the market for the good and better grades retains its firmness, those being in request, while the poorer qualities are in good supply, and neglected. The sales are 898 bags Rio, per Edith Rose; 1000 do, per Nord; 1392 do, per J. A. Stamber on private terms; 1655 St. Domingo, for export, at 12¾ cents, gold, in bond; 262 bales Mexican, 23@23¼, gold; and 100 Laguayra and 151 Costa Rica, on terms not made public. Of Rio, out of town, we notice 2000 bags, per Sea Eagle, in Philadelphia, at 15¾ cents, in bond; and 2000 do, in Baltimore, per Agnes, 20 duty paid, both gold.

Sugar—The market for Raw continues depressed, there being an increasing desire to sell and a corresponing disinclination to purchase, except for the supply of immediate wants. Prices in consequence, are unsettled and tend downward, and we again reduce our quotations one-quarter of a cent on refining grades, but even at this decline they are still entirely nominal. The better grades are but little, if any, lower, being much better sustained than refining qualities. Refined is also dull and lower—hard, 17¼ cents; soft white, 15½@16½; and yellow, 14½@15¼, cash. The sales of Raw are 693 hhds Cuba at 9@13 cents; 254 Martinique, 11½@12½; 13 clarified do, 14¼; 700 bags brown Pernambuco, 11¼; and 1424 bxs Havana, 10½@15, 4 mos. The stock yesterday was about 26,324 hhds, 51,265 bxs, and 101,666 bags.

Molasses—The demand is almost exclusively confined to the prime and choice qualities of Foreign and new crop New Orleans, in a retail way, for immediate use; prices of these are steady, but low grades Cuba and Porto Rico are neglected, and to effet sales, low prices continue to be accepted; indeed, there is scarcely any market for them, buyers looking forward for receipts of the new crop, in the meantime, the stock is pretty large, and rather pressed for sale. The sales are 180 hhds Porto Rico, in lots, at 65@80 cents; 20 Demerara, 52 ; 225 Barbadoes, 53; 50 Cuba Muscovado, 42½; 540 hhds, 38 tcs and 12 bbls do, mostly for refining, 36@38; 30 hhds St. Croix, 50, 4 mos, and 225 bbls New Orleans, $1@1,20, cash. The cargo of the brig Machias, from Cardenas, arrived 22d inst, said to be new crop, was offered at auction yesterday, but withdrawn, the bids not being satisfactory to the owner. The stock yesterday was about 1900 hhds Porto Rico, 6800 Cuba, &c., and 1000 bbls New Orleans.

New York Iron Market.

NEW YORK, Jan. 27.—For pig there is a moderate demand, with sales of 600 tons Glengarnock; in lots, at $34, gold; 300 do Gartsherrie and 50 do Glengarnock, $48, currency, ex-ship; and 1000 do Glendorn, on terms we did not learn. We notice besides, 600 tons old rails, half for Philadelphia, a few days since, at $53; and 200 do wrought scrap, on private terms. Bar, from importers and manufacturers hands is a little easier—we note sales from importers of 50 tons English refined at $107 currency; 50 tons ordinary do $73,50, (good specification are held higher); 100 tons Belgian, to arrive, $72,50, gold; and 100 tons American (Trenton) from manufacturers hands, $110, currency, cash. From store, there is a good demand for the season, and our quotations are sustained.

MARKETS BY TELEGRAPH.

Finance and Trade in New York.

NEW YORK, Jan. 27.—Railway speculation assumed a firm tone this morning, and there was more animation and activity. The entire list was up from ½ to 1 per cent., with better demand generally. After the regular session the market became heavy, and the improvement was nearly all lost, but there was another rally before one o'clock board. The market at second and last board was stronger, especially on Pittsburgh and Michigan Southern, with little more doing. At the close Erie fell to 82¼, and the whole market was lower.

The following were the closing prices at 4:30 New York Central 91; Erie 82¾; Hudson 101; Reading 99; Michigan Southern 68⅝; Cleveland and Pittsburgh 78¾; Northwestern 28¾; Fort Wayne 93¾; Ohio and Mississippi certificates 25. State bonds were quiet, and without any marked change in quotations. Miscellaneous shares were strong. Pacific Mail 200@210; Atlantic Mail 110@117. Governments rather more steady in price, without any advance. Gold closed at 139¾.

NEW YORK, Jan. 27.—The Commercial says a more confident tone pervades Wall street, and prices show a tendency to react from the late decline. The Jura's report of an improving condition of affairs at London, has reassured the branches of business depressed by the European news, the effect being especially apparent in an advance in Governments, and a partial weakness in gold. There are no important clique combinations on either side of the market. There has been a slight increase of outside business during the week, but the bulk of the transactions are on brokers accounts. Money is unchanged. The street demand is moderate. The rate on call is becoming more generally the topic, with limited business, at 5 per cent. Discounts are active. There is a better supply of produce bills but the amount is still below what is usual at this time of the season. Commission and jobbers paper is in very ample supply. The rate for names, continues at 6½@7½ per cent; good three to four months bills, 8@9 per cent; lower grades 10@15 per cent. Gold is easier under the impression that the crisis in financial affairs, at London, has passed its climax, and also owing to the growing conviction that Congress will not authorize the foreign loan, proposed in the bill under consideration in the Committee on Ways and Means.

The steamer City of New York, took out this morning $390,268, and the Hansa $141,000, which, added to Wednesday's shipment, makes a total of $797,000 for the week. Foreign exchange was quiet as usual on the last day of the week. The leading drawers quote 60 days sterling at 108½.

New York Market.

NEW YORK, Jan. 27—COTTON—More steady, 48@49c for middling.

FLOUR—Less active, but prices without decided changes at $7,75@7,90, for extra State; $8,45@8,55, for extra R. H. O., and $8,60@10,30 for Trade Brands, market closing heavy.

WHISKY—Dull, and without decided change.

GRAIN—Wheat, No. 1., $1,74; new Milwaukee and in store at $1,75, and prices dull; Barley and barley malt, dull and nominal. Corn more active but without decided change at 79@81 for unsound; 82@85 for sound mixed western, in store and delivered. Oats firmer but less active at 43@45c for unsound Western; 58@60c for sound.

PETROLEUM—Steady at 53@55c for refined in bond; crude, for February, 32½@33.

PROVISIONS—Pork heavy and irregular at $28,62½@28,87½ for new mess, and closing at $28,62½ cash, $28@28 25 for old do—closing $28 cash, $20,75@21 for prime and prime mess. Also 6750 bbls new mess for February March and April, sellers option at $28,50@2875. Beef quiet and Beef Hams in more request; Cut Meats quiet; Bacon more active and firmer; Cumberland cut 15¼c on the spot, and 15c for February delivery, sellers' option. Dressed hogs heavy at 12¾@12½c lots. Lard heavy at 17½@18c. Also 2,500 bbls for February March and April, sellers' option, at 17¾@18¼c.

Baltimore Cattle Market.

BALTIMORE, January 25.—Beef Cattle—The offerings during the past week were 1,201 head, against 1,247 head last week. The quality of cattle offered was much better than last Thursday. Of the number offered, 788 head were from Ohio, 85 from West Virginia, and 30 from Kentucky, all brought over the Baltimore and Ohio Railroad; 36 from Western Pennsylvania and 127 from Illinois came by the Northern Central Railroad. There were no Maryland cattle brought this week. 85 of the number offered were left over from last week. Of the sales 140 head were bought by Washington butchers, 75 by the Government agent, 125 by graziers, 48 were sent to Newark, New Jersey, and 225 were left over, the balance (588 head) were taken by Baltimore butchers. Prices today ranged as follows: Very best on sale $8 50 @$8 75; second quality $6 75@$8; third do. $5@$6 50; stock cattle $5@$5 50, and scalawags $3@$4 50 per 100 lbs. Average of the market same as last week. The market closed very dull, with a downward tendency, notwithstanding the superiority of the cattle over last week's offerings. The sales show a decline of 25 cents per 100 lbs on all grades.

Sheep—The supply has been very full this week, some very fine, with sales at 6¼@8 cents per lb.

Hogs—The supply has been equal to the demands this week, and the packers buying but little; moderate sales, mostly to the butchers, at $12@$14 50 per 100 lbs.

RIVER, WEATHER, ETC.

The river is falling with only six feet water in the channel It reached its greatest altitude Friday night or Saturday morning, at which time there was over twelve feet water, showing that it must have receded very rapidly within the past forty-eight hours. The weather on Saturday was just cold enough to prevent its thawing, but yesterday, it thawed a little all day, just sufficient to make it disagreeable, the air in the meantime being raw and chilly. Business at the landing on Saturday was slim, on account principally of the danger attending its transaction, the whole landing being a glare of ice, which had disappeared for the most part last night. To-day, on account of the arrival of several boats from below, there will doubtless be a lively time. We should mention in this connection that the river is entirely free from floating ice.

The arrivals since Friday night are the Bayard, Lorena, Leonora No. 2, Kenton, Kate Putnam and Silver Cloud. A number of tow boats have also arrived.

The Nevada, Capt. Evans, left on Saturday for St. Louis.

Waunitta, Capt. T. Shuman, will positively leave this day for Cincinnati and Louisville. She has the most of her freight on board, and has a clear river to start on.

The Rubicon, Capt. Haslett, will most probably leave to-morrow evening for New Orleans. This was the intention on Saturday evening, and if the weather does not interfere, she will go at that time.

Our friends in the Parkersburg trade should bear in mind that Capt. Geo. D. Moore's, ever punctual packet, Bayard, will leave this afternoon for Petroleum Centre, better known as Parkersburg. The Parkersburg line is now composed of three staunch boats, each of which will make two trips a week, connecting with the different lines of railroad on the route.

The clerk of the weather has given notice that on the first of February the weather will again be very cold, remaing so for several days. His predictions thus far have proved true, and we have no reason to doubt him at this time. We should think, however, that in view of such an event occurring, it would be well to hurry up freight as fast as possible.

The Forest City, Capt. Gordon, left for Parkersburg on Saturday. She will have no trouble with the ice this time.

We are pained to announce the death of Mr. Robert L. McGrew, one of our oldest steamboatmen, who died after a long and painful illness at his residence in McClure township yesterday morning. Mr. McGrew has been identified with the steamboating interest since its infancy, having commenced we think on the Osceola in 1826. He was in the old Pittsburgh and Cincinnati packet line from its inception till it ceased to exist. Of late years his declining health has rendered it necessary that he should rest from his labors, and but a few weeks since he started South with the hope of being benefitted by the southern air, but was compelled to return after reaching Cincinnati. His disease was consumption.

The Glasgow, Capt. Geo. W. Johnson, is now receiving freight at the landing for Cincinnati and Louisville. The Glasgow is a new boat—this being her first trip—and is very handsomely fitted up in her cabin arrangements. Her general finish is very neat and plain, and having adopted all the modern inventions, there is nothing wanting to add to the general comfort of the passengers. She will leave about the middle of the week.

The Camelia, Messenger and Citizen were advertised to leave Cincinnati for Pittsburgh on Saturday evening.

Attend to Your Colds.

A case of five years' standin cured by DR. KEYSER'S PECTORAL SYRUP.

PITTSBURGH, January 11, 1860.

DR. KEYSER:—My wife has been afflicted with bad cough and difficulty of breathing for five or six years, which, for several years back, had gradually increased in violence. The complaint has been hereditary, and she had been treated by several physicians without any relief. In this state of her case procured some of your PECTORAL COUGH SYRUP. I bought, the first time, a fifty cent bottle, which relieved her very much; I then called and got a dollar bottle, which cured her entirely, and she has now no trace of the former disease, except weakness. I would also state that I used the medicine myself to cold and cough. The medicine cured me by taking one dose. I express my entire satisfaction with the medicine, and you are at liberty to publish this if you desire to do so.
WM. WILSON,
Alderman, Fifth Ward.

PITTSBURGH, November 18, 1858.

DR. KEYSER:—Although not an advocate of Patent Medicines, in general, it affords me pleasure indescribable to recommend your PECTORAL SYRUP. As a medicine it is well worthy the attention of any person who may in any manner be afflicted with coughs, colds and hoarseness of any kind, and for the peculiar qualifications for removing all that disagreeable sensation attending a severe cold.

I have been, more or less in my life, affected with the severest of colds and hoarseness. At times my throat would become so closed as to prevent my speaking above a whisper, and by taking a few doses of the above Syrup it would relieve me entirely.

In recommending this medicine, I must unhesitatingly say that it is the best remedy I ever found, purporting to cure the above, nor should any family be without this remedy for diseases so prevalent.
Yours, most respectfully,
EDWARD J. JONES,
Cashier Citizens' Deposit Bank.

STEUBENVILLE, Ohio, March 14, 1865.

I have used Dr. Keyser's Cough Syrup for a bad cough of several years standing, and can cheerfully say it is the best medicine for the same that I have ever taken.
J. W. PRICE.

COL. PRATT AND DR. KEYSER'S PECTORAL SYRUP.—DR. KEYSER—Dear Sir: Excuse the delay of my acknowledging the excellence of your Pectoral Cough Syrup sooner. I take great pleasure in saying that it is all you say it is. It knocked the noise out of my cough, and the worst one I was ever afflicted with. I have not used more than one-half of the bottle, and I can and do wish that all who are afflicted would give it as fair a trial as I have done, and they will be proud to say, "It is no quack medicine." I would not suffer another such an attack for any consideration, or at any cost. I am confident I can breathe more freely than I ever did. I shall always acknowledge a debt of gratitude for inventing so excellent a remedy. You are at liberty to use my name in this regard as you think proper.
E. F. PRATT,
Messenger Common Council, Pittsburgh, Pa.

N. B.—I am no stranger to my fellow-citizens, and all who entertain doubts can consult me personally.

PITTSBURGH, April 24, 1857.

READ THE TRUTH.—DR. KEYSER:—I have a daughter who has taken several medicines for a bad cough without benefit, among them Ayer's Cherry Pectoral. I purchased from you a bottle of your Pectoral Syrup, and before she had used half a bottle she was relieved. The second bottle cured her entirely of her cough.
JOHN DABIN,
Robinson street, Allegheny.

PITTSBURGH, December 31, 1853.

A GREAT CURE BY DR. KEYSER'S PECTORAL SYRUP.—I live in Peebles township, Allegheny county. I had a cough and spitting, which commenced about the 4th of February last, and continued eight months. I employed the best physicians in the country, and my cough continued unabated until early in October. At that time I was advised to try your Pectoral Cough Syrup, which I did, and after I had taken one bottle I was entirely free from the coughing and spitting. I had despaired of ever getting well, and I think it should be known that this valuable remedy will do for others what it has done in my case.
JOHN C. LITTLE,
Witness: B. M. KERR. Peebles township.

PATTON TOWNSHIP, April 14, 1848.

A WONDERFUL CURE.—Some time ago an old neighbor of mine was very ill with a bad cough, which every one supposed to be consumption. His relatives told me that he had taken every remedy they heard of without benefit; his brother came to see him die, and all were confirmed in the belief that he could not live. I had about the third of a bottle of your Pectoral syrup, which I gave him, and it entirely cured him, to the astonishment of all. What makes the case more remarkable, is the extreme age of the man, he being about eighty years old. I have no doubt the Pectoral saved his life.
JOHN McGINNIS.

DR. KEYSER'S PECTORAL SYRUP IN BLAIRSVILLE.—Please send me another supply of your valuable Pectoral Syrup. Almost everybody around us has the cold, and are enquiring for "Dr. Keyser's Pectoral Syrup." We have sold sixteen bottles the past week, and are now entirely out. Mr. A. Alter and Mr. P. Maher, both of Blairsville, Pa., told us they would not be without it in their families. In fact, all who use it once want it again.
Yours, respectfully,
J. S. WATTERSON & SONS.

ANOTHER NEW CERTIFICATE.—DR. KEYSER'S PECTORAL SYRUP.—I had been troubled with a cough and cold for several weeks—so bad was it that I could not sleep. I had the advice and prescriptions from three of the best physicians in the city, whom I could name, but do not do so. I finally procured a bottle of your Pectoral Syrup, which cured me entirely.

"STOP THAT COUGHING."—"How can I do it?" Go to Keyser's, on Wood street, and get a bottle of his Cough Pectoral, and if that don't cure you, your case must be desperate indeed." This is a specimen of the colloquy one hears every day in cold-catching periods of the year. And we can, from actual experiment, cheerfully concur in the adviser's admonition as above, for we have tried the "Pectoral," in a most stubborn case, with entire success. Near two weeks ago we went to Pittsburgh, with one of the most distressing, contrary, mulish, unsubduable coughs we ever experienced since our advent upon this mundane sphere. We coughed steadily and laboriously for one whole week, in hopes of tiring it out, but it was no go. In fact, it seemed rather to have improved by practice, and to have acquired strength, potency and distressibility by the operation. In this stage of the siege, we coughed our way to Keyser's, No. 140 Wood street, procured a fifty cent bottle of the "Pectoral," took it according to directions, and in forty-eight hours we were master of the field, the enemy having unconditionally surrendered, after a brief, but unequal conflict with so formidable an adversary as Keyser's famous Cough Pectoral.—*Brownsville Clipper, Dec. 14, 1859.*
